As the Bicentennial firecrackers fizzled, and time capsules were sealed for the tricentennial, we headed back to the well-known confines—the air conditioned climate that never seemed to be quite warm or cool enough. Our cycle of four high school years was coming to a close.

As freshmen we had entered scared, dazed, confused and perplexed—the largest class ever to enter Cedar Crest.

The nation was caught in the midst of domestic and international turmoil. The Arab countries had placed an embargo on oil causing gasless Sundays and long lines at the pump on weekdays. Watergate fever was beginning to infect the nation as John Dean made his accusations of Richard Nixon having prior knowledge of the Democratic headquarters break-in.

## Class of '76 Graduated Amid 200th Year Celebrations

Amid the splendor of sunny skies and red, white and blue, the 367 members of the 1976 senior class were graduated at commencement ceremonies June 3.

Following a Bicentennial theme, the program included 25 students re-delivering speeches by famous Americans, including Lincoln's Gettysburg Address and Patrick Henry's "Give Me Liberty or Give Me Death." Diplomas were presented by Dr. Marlin Kessler, district superintendent, and Mr. William Sullivan, president of the school board.

At the conclusion of the graduation exercises, graduates, friends, and relatives were feted at a reception in the gymnasium sponsored by the Booster Club. An all-night party enabled graduates to spend their last activity as a class together. Breakfast served in the "Club '76" finalized the event for those who lasted the whole night.

Music by Cross-Town Bus highlighted Prom night, which included dancing and a filet mignon or lobster-tail dinner at Lancaster Sheraton-Conestoga Village.

*Dr. Marlin Kessler congratulates Sue Sechrist as she is awarded her diploma after twelve years of schooling.*

*Director-coordinator Mr. David Shenk, interrupts a scene to give last minute stage directions*

# 'Full House' Audiences Enjoy Aquacade's Chronological Journey

With a flick of a switch and the twinkle of lights "Time Machine", the theme of the 1976 Aquatics Show, began amidst sellout crowds for three straight nights.

Father Time, portrayed by Steve Olson, led the audience through time periods dating between 1776 and 1976. Concealing himself inside the time machine, Father Time conveyed his thoughts, memories, and aspirations before each of the ten acts.

Songs such as "Sentimental Journey", "Yesterday" and "Space Odyssey" filled the natatorium with synchronized movements, catchy rhythms, and dancing lights.

Black lights and strobe lights were incorporated into one of the shows most

difficult routines, where sophomores swam to the sound of "I Am Woman." Mrs. Anne Boyer, club adviser, commented, "I think people enjoyed it because it was different."

The evening came to a close with a candlelight finale to "God Bless America." Father Time finally emerged from his time machine to join with the entire club in this salute to America.

ABOVE RIGHT: Aquatic club members enter the water for the finale as candle reflections shimmer on the water.

As he narrated the show, Steve Olson emerged from the "Time Machine."

With graceful movements Beth Phillips performs to "Dream Weaver."

Human letters spelling out "USA" are made by male club members.

Scott Richards pauses moments before his act as student diver in "Space Odyssey."

Brown, Sue Grub, Mrs. Anne Boyer, Steve Olson, Tammy Ditzler, Toni Stoll, Tami Maloney, Linda Bernhard, Brian Hartman, Cindy Sullivan, Sue Karapcik, Jeanne Yorty BACK ROW Scott Richards, Mark Sakalosky, Dan Woist, Sheilagh Buck, Jodi Romlinger, Lionel Lea, Tom Bohnay, Jean Achenbach, Mark Guenio, Bronda Sanger, George Gerdes, Randy Blessing, David Lee, Joel Harter

With the water creating a mirror-effect, the performers are engulfed in waves of light.

## Ocean Liner Cruise Provides Background For Gymnasts' Revue

'All Aboard' was the cry heard as 81 gymnasts entered the ocean liner U.S. Heritage for the start of the 1976 Gym Show. Preceded by the chorus who sang the opening song "Oh Beautiful for Spacious Skies," the gym club members began their cruise to various cities and states throughout the United States. The U.S. Heritage was designed by John Richards, who also completed most of the work on the ship himself.

Philadelphia, Pennsylvania, was the first stop on their tour, allowing the crew to exhibit tumbling feats. Upon reaching Seattle, Washington, junior and senior girls boogied down to "Disco Lady," choreographed by Jodie Moyer.

While in California, crew members

executed various skills on the uneven parallel bars, and also showed their agility in vaulting, with the "elephant vault" highlighting their performance.

The scene for the specialty dance was New York City where the girls hustled to the "Theme From S.W.A.T." As their voyage continued to several other cities, the gymnasts demonstrated their abilities on various pieces of apparatus, including the rings, the trampoline, and the balance beam.

Docking in Montreal, Canada, the crew members of the Heritage concluded the show with the traditional March of the Olympians. This city was chosen because it was the site of the 1976 Olympics.

*ABOVE RIGHT: Lisa Mladenoff, Sue Karapcik, and Deb Kahis intently watch performing teammate on the balance beam. RIGHT: Concentration is utmost as Mike Gerdes' mind as he performs on the rings.*

# Snow, Sub-zero Cold Cause State of Emergency

It was the coldest January, if not the coldest winter, said the U.S. Weather Service, and few people doubted them. Combined with snow and the natural gas shortage, it proved to be a winter that few would forget.

Beginning Christmas evening, snow fell over Lebanon and throughout the state to give Pennsylvanians a "White Christmas." That same snow remained through February as temperatures plummeted to the low 20's to bring the new year in with a severe chill.

Closing schools, creating hazardous driving conditions, and causing extensive drifting, five more inches fell on the Lebanon area January as temperatures continued to drop in the low teens.

Three days later, two and a half more inches of that white stuff was added to the rest, only to be followed by a sheet of frozen rain covering the snow. The icy conditions closed most schools, including Cedar Crest, and created more treacherous driving conditions.

As city trucks continued plowing streets and roads, it was questionable which was worse—driving on snow-covered roads or sliding on the ice that formed after plowing.

The continued cold wave began to take its toll with a five day streak of below zero weather. The cold weather set off natural gas curtailments and thousands of industrial plant layoffs throughout the northeastern United States. Water main breaks also caused water shortage in some areas, and frozen lines cause other serious problems.

Frozen rivers throughout Pennsylvania posed threats for the present and future. The Susquehanna, Ohio, Allegheny, and Monongahela rivers froze and ice flows snarled barge traffic and stalled fuel shipments. Because ice thickness was way above normal on state rivers, ice jams and heavy flooding were a threat when warmer weather arrived.

As cold weather continued and the urgent need for natural gas became greater, Pennsylvania Governor Milton Shapp declared a state of emergency due to the energy shortage on January 18. Pennsylvania was followed by New York, Florida, Ohio and Tennessee with their own states of emergency.

By the 22nd, President Jimmy Carter urged all Americans to turn down thermostats to 65 degrees to save vital fuel supplies. President Carter also asked Congress for emergency legislation to improve distribution of fuel supplies. The following day Mayor George Haverling, Jr., declared a state of emergency in Lebanon because of

frozen water lines.

Governor Shapp asked Pennsylvanians to pull on sweaters and turn down thermostats to 62 degrees, and use electricity only when necessary. The Lebanon Valley Chamber of Commerce followed with their own appeal to all member industries, retail establishments and businesses to cooperate in reducing use of gas during the emergency.

The increased necessity for natural gas was marked by UGI Corporation's cut back of gas deliveries to small commercial and industrial customers by seventy-five percent. They were urged to use alternate fuels and reduce all uses of natural gas. Residential customers became the top priority for gas companies while industries fell last.

Six local industries, Bethlehem Steel, Lebanon Steel Foundry, Alcoa, Quaker Alloys, Hershey Foods, and H.B. Reese Co., were among 48 firms in the Reading-Lancaster-Harrisburg area whose gas was curtailed effective the twenty-fifth. The Good Samaritan Hospital and Hershey Medical

Center were also included in the cut-backs, which were expected to last until the end of March.

Giving school kids an unexpected vacation, Governor Shapp ordered all schools closed for three days beginning January 27 because of energy shortage. Private and public schools, regardless whether they were heated by gas, were closed along with the cancellation of all extra-curricular activities. Non-gas heated schools returned to school after the three day period, gas-heated schools a week later.

At Cedar Crest it was the first time in the school's history that the school was shut down on account of the cold weather. The closing effected many extra-curricular activities, including winter sports, and also disrupted teachers' grading at the end of the second marking period.

Tornado-like winds and more snow combined as a blinding blizzard that left many motorists stranded in drift-covered roads January 28.

In a television appeal that same day, Governor Shapp requested for small businesses,

public buildings, and places of entertainment to close. Most local stores, however, chose to remain open but reduced store temperatures and cut hours.

As February came, temperatures gradually rose and the fuel pinch in Pennsylvania began to ease. With warmer temperatures snow was predicted, but evidently the worst of the winter had passed. Federal legislation for fuel distribution and relief for economic losses became a reality for those states in need.

The effects of this frigid winter such as job layoffs in industries, rising fuel prices, and tremendous crop losses in southern states caused economic problems which were expected to reach into the summer.

As a "gift" to all students, Governor Shapp announced that the three days of closing would not have to be made up. But snow days took away parts of Easter vacation and a day or two was added on to the end of school, and students at Cedar Crest found that the cold and snow had made their mark in more ways than one.

High winds presented the problem of blowing and drifting snow. This sizeable mound was formed in the corner of the greenhouse atrium.

The gym and pool entrances, frequented by athletes and spectators, remained vacant during Governor Milton Shapp's order to close schools. All athletic practices were also cancelled.

# CELEBRATE. CELEBRATE...

Homecoming 1978 at Cedar Crest started out Friday night with a blow in the shape of high winds, which cancelled the annual bonfire.

Even so, spirits remained high as students boogied down at the record hop in the gym. Other students were still to be found working on the dance decorations over in the middle school foyer, some since three o'clock that afternoon.

Concluding the festivities for the weekend, an old tradition was revived, and the senior girls battled the junior girls in a flag football game Sunday afternoon. Despite cold weather, the seniors made two touchdowns, winning by a score of 14-8.

Saturday made the whole excitement of Homecoming come alive.

# Homecoming Conquers Club's Apathy Problem

I think this Pep Club has been faced by a problem not faced by any other Pep Club. The problem is apathy. It is a problem that has to be solved by all 678 members. We officers hope that we can install the spirit at Cedar Crest that has momentarily faded away, stated Pep Club president Lori Burrus.

Apathy proved to be one stumbling block that was eventually overcome. A good sign at which time the money was raised, project completed and over \$3,400. With the freshman leading the way, the club proceeded to have yet another very successful project.

Pep Club produced the 10th Annual Homecoming weekend for the school of red, white and blue and "A Little Night Music." The

Homecoming Dance found new home in the Cedar Crest Middle School for the first time in the school's history. A Sunday powder puff football game was played once again, renewing an old tradition.

The next project Pep Club undertook was the Hall Decoration Contest. Capturing a tie for first place, the seniors won for originality and the juniors for all-around appearance.

Summing up the year we can say that Tom Belney, our yearbook editor, did a great job. We did have an apathy problem. But think of Homecoming! That was ours and it was certainly a triumph. The start of the varsity basketball games we also pulled together. Apathy was a problem, but we were spirited enough to overcome it.

# IT'S C-C-COLD Dinosaur, Mammoth Highlight Fall Play

Capturing the history of mankind through such calamities as the Ice Age, a flood, and an entire war, Thornton Wilder's *The Skin of Our Teeth* was presented November 19 and 20.

Because of the many students who auditioned for the play, Mrs. Phyllis Yaklich, director, chose to have two casts instead of one. "I think it was marvelous that we could get two casts of such talented actors and actresses," she commented.

The casts, complete with a dinosaur and mammoth, enacted the adventures of the Antrobus family - George, his wife Maggie, their two children, Gladys and Henry, and their precocious maid, Sabina.

The identities of the dinosaur and mammoth were revealed at the conclusion of each performance. Neither the audience or the casts knew the people who portrayed these characters in the first act. Everyone was in-

vited to take a guess in a contest prior to the play, and whoever was correct received two free tickets to the upcoming spring musical.

*The Skin of Our Teeth* is not a conventional drama in that it does not adhere to normal concepts of time and space. As Beth Musselwhite put it, "The play is unusual but unique in its own way."

The Tuesday before the play performances, the cast members conducted previews of the play during school in the auditorium. Bits and pieces from each act were shown at fifteen minute intervals to arouse student interest.

Apart from the actual presentations, falling flats, a rickety chair, a clothes tree that fell apart, and soft roll potatoes kept rehearsals interesting as well.

Some of the scenes from the play were shown to leave his wife

# Record Hops, Dance Attract Student Body

Taking on the theme 'Midnight Sleigh Ride', the Sophomore - sponsored Christmas dance, December 18, proved to be one of the most successful ever.

Upon entering the candlelit passageway, couples were greeted by a snowman. Aluminum foil covered the bleachers, while Christmas trees were situated in the center of the dance floor with Santa and a sleigh full of packages.

Crepe paper trees decorated the corners of the gymnasium, and tables were covered with green

and white streamers.

Music was provided by Starfire.

## Record Hops

Swaying bodies, pulsating music, and socializing people were all part of the scene Friday and Saturday nights during the school year. When normally, quiet people gathered together in the caf or gym to let off steam, boogie, make out, or just have fun at that honored tradition, the record hop.

Identification cards became the rule for record hops. Forgetful students signed a list and promised to show their I.D.'s on Monday. Guests were signed for and became the responsibility of the student host. Trouble from guests remained at a all-time low.

Entering the hop, the newcomer was greeted with vibrating sounds, sudden darkness, and students gathered to perform their latest dances. Shoes were removed, shirts opened, and inhibitions fled as the evening progressed.

The star of the evening was the disc jockey hired for a reasonable fee to satisfy the students' hunger for their favorite songs. He was the center of attention and was often given requests for special songs or 45's.

Six teacher chaperones were required to be present, and were often seen dancing and conversing with students.

As the evening came to a close, gossip for Monday was put aside; tired, weary bodies put themselves to bed or went out cruising, curfew permitting. And by Monday the question was heard buzzing through the halls.

Is there a record hop on Friday?"

Members of the band and bandfront prepare to scour the field for corn cobs during a fund raising project.

## Band Members Become Marching Cornpickers

Beginning with two weeks of hard work at summer band camp in early August, the Marching Falcon Band started on a year of fun and diligent practice.

At camp water battles were an everyday sight and freshmen initiation was not uncommon. One could expect to see those new band members coated with shaving cream, soaked with water, and carrying rocks which hung around their necks. Swim-

ming suits were the common attire and even if a strap tore or the roads were too hot for bare feet, the band marched on!

As a community service, nearly forty band members helped an injured farmer pick corn while netting the band \$120.

Conducted December 19, the Christmas concert featured senior band members and a few underclassmen.

## New Look for Girls; Winter Guard Added

After two weeks of band camp and evening practices, the Falcon bandfront emerged from summer practices with a new look.

Majorettes and silver girls changed from solid blue or silver uniforms to a mixture of the two, and silver girls added to their routine the new concept of twirling fire. The new feature twirler position was received by freshman Kelly Dullenbawn.

Silk and rifle squads also changed their look

from black and white uniforms to blue and white ones.

Winter guard competitions were a new addition to these squads and included twelve silks, six rifles, two sabers, and three members for the main guard. Competitions consisted of a five to six minute indoor drill.

Band major, George Dohner perched on a ladder, guides the band through their various movements.

# Parades, Camp Prepare Band for First at Hershey

The 1976 season proved to be a successful one for the Cedar Crest Marching Falcon Band after moving up to the American Conference class, a class higher than last year's Independence Conference

Under the direction of Mr Robert Rhine, Mr Phil Hower, (silk and main guard instructor), Mrs Sharon Chernick, (band front instructor), Mrs Carol Rhoads, (rifle instructor), and Mr. Bart Sando, (drum instructor), the band marched through the heat of summer parades and the cold of football games, competitions and winter parades

Practices were scheduled on Tuesday and Thursday nights starting in July in order to prepare the band and to teach freshmen some of the basics of marching

Two hot weeks of band camp started in the

beginning of August where the field show was learned. The band exhibited the show they had been working on at the first football game.

Before the opening of the season, the marching unit participated in six Bicentennial parades, and played for "Lebanon Day at the Vet" at Philadelphia's Veteran's Stadium. They also performed at the Mt. Gretna Day concert

The Marching Falcons hosted their Third Annual Band Competition in September and achieved one of their highest scores of the season, a 59.6. Their only higher score, a 59.9 was achieved at the Lower Dauphin Band competition where they captured the first place trophy after four previous attempts

In the Lebanon High School Band Competition, the band received second place with a score of 53.9

A score of 58.75 was

achieved in the Hanover Band Competition where the Falcons received fourth place. Winning a rating of "Outstanding" in the Cedar Cliff competition the band recieved a score of 49.98

Going on to state competition and returning again to Veteran's

Stadium in Philadelphia, the Marching Falcons received tenth place out of thirteen bands with a score of 56

"I think we had a very successful year," said drum major George Dohner. "The many hours of practice paid off!"

# Charcoal Mural Wins First Place

Art contests, play scenery, and trips rounded out the year's activities of the Rembrandt Club.

Beginning the year, club members plunged into working on scenery for the fall play. During this time other members constructed the set decorations for the Christmas concert.

A charcoal mural depicting the Cornwall Furnace was entered in a contest sponsored by the Lebanon Jaycee's in the Lebanon Valley Area. The mural, constructed by Sharon Stanaway, Beth Musselwhite, and Lindsay Lape, took a commendable first place of \$100.

Using the money won in the contest, the club sponsored an art contest for

students at the Cedar Crest Middle School.

The highlight of the year was construction of some scenery for the spring musical, "The Sound of Music."

Members also made a trip to the Scholastic Art Show in March.

## Art Department

Those that have special interests may work independently to develop their skills, stated Mrs. Fern Eberly. Such was the case for many of her students whose interests ranged from scratchboards, dye-dyes, and batiks to staining glass, architectural drawings, and silk-screen printing.

Other students who preferred assigned projects

worked equally as hard on paintings, clay, and self-portraits. Because of the minimal enrollment, the teachers were able to give more individual attention to their students.

Murals were designed and painted during class time by Beth Musselwhite in Mrs. Ruth Maud's office and Lindsay Lape in Mr. Carl Kreider's room which made their year unique, explained Mrs. Eberly.

Originality in billboard and poster designs by Felipe Rodriguez highlighted Miss Gloria Szech's classes. He designed and silk-screened posters for the spring band concert and art show, and also painted three billboards advertising the spring musical.

## Student Overload Causes Problems

Mathematics teachers felt the strain of too many students and too many teachers, especially in the lower grade levels.

Mrs. Patricia Kibru describes her schedule, "I've had eight classes a day for the past two years. They keep promising us a new math teacher."

The main problem with being overloaded was that the teachers didn't have quite time to help students outside of their classes. Classes were so crowded that the teachers felt they could not meet every student's individual needs.

Once again the department put together a math team. Schools in Lebanon County competed with teams consisting of three to

six members. Participants this year included seniors Dawn D. Mendenoff, Dan Garrett, Pat Sullivan, and juniors Paul Slayton and Cameron.

Competing in February and March to answer questions within specific time limits in such areas as algebra, geometry, and

### Science Department

The complexities of the universe, minks, and the weather were some of the many topics explored in this year's science classes.

Science in the Home is a new course taught by Mr. Philip Ke-

lley during the second semester to students of Germ. According to Mr. Kelley, the course uses scientific methods to solve everyday problems. "Hopefully by the end of the year the students can take a problem and solve it entirely on their own, using methods we discussed," remarked Mr. Kelley.

The primary objective of the department is to provide a variety of courses geared to both the academic and non-academic student. Mr. Abram, department head, "I want to see every second year student in biology and chemistry and science to fulfill this objective."

## Mandatory Program, Change of Schedules

Whirring machines, flying sawdust and scurrying people can be found every day at the north end of the building in the shops.

Four basic courses are offered in the industrial arts curriculum and they are wood shop 1-1V, metal shop 1-1V, art metal, and a new requirement for all freshmen, unified arts.

According to Mr. John Embich, metal shop instructor, "I have mixed feelings on the programs offered in the industrial arts program. I feel a school of our size should definitely offer many more shop courses, but I realize that there is no room to implement these plans. However, if we do get the new addition with the two new shops, we can offer graphic arts, power technology and drafting. This will definitely improve our program."

One new program offered this year was the mandatory unified arts program for all freshman

Each freshman spends 4 weeks in each of the shops, wood and metal. Mr. Embich stated, "I think it's great that the students are exposed to the shop courses, but I wish that the students were here longer than 4½ weeks. It's very hard to work on a project and complete it in 4½ weeks. Instead of wood shop for 4½ weeks and metal shop for 4½ weeks I'd like to see the students take nine weeks of mechanical drawing. I feel this would be more beneficial for the students."

Freshman Kim Light commented, "It's really a strange situation. When you're in shop, it's mostly a matter of the teacher or one of the boys telling you what to do. It's different, but I like it. You're exposed to things that you might never experience."

## Chorus Honors Customs

"Having a smaller chorus this year made it much more manageable and well balanced. We developed a great deal throughout the year, and had a particularly good bass and tenor section," said Mr. James Garrett, choral director.

Highlighting the years hectic schedule was the annual Christmas concert. The theme was based on the various nationalities that came to the United States, each contributing something to the way America celebrates Christmas. Carols from many different countries were included in the program.

Other activities of the chorus included a concert

at Masonic Hall, a performance at the Veteran's Hospital, recording Christmas programs for WAHT and WLBR radio stations, and taping one for the WLYH television station. The chorus also sang sacred music at some of the churches in the area.

For the spring concert the chorus presented a program of secular music with special choreography done by the chorus.

Brian Butcher, Brian Haldeman, and Clay Bombgardner represented Cedar Crest at the County Chorus. Qualifying for the District VII chorus were Brian Butcher, Ann Edris, Joel Harter, and Clay Bombgardner.

Leading the chorus in morning rehearsal, Mr. James Garrett prepares them for the Christmas Concert.

## 'Morning Exodus' Plagues Chorus

A typical day for the chorus always began at eight o'clock, when everyone settled into their seats to await and listen to the morning announcements. After these were finished, choral director Mr. James Garrett led the group through their "morning exercises" which often included a rather sleepy rendition of the 'National Anthem'.

Roll call followed, for chorus was also a homeroom. According to Mr. Garrett, he was

probably the only teacher in the county to have over 70 students in his homeroom.

The rehearsal itself began at 8:15 and continued with one noticeable interruption, until nine o'clock. This interruption was commonly known as the "Morning exodus". At 8:30 every day approximately ten students, mostly sophomores, would get up and leave rehearsal. They left not because they were tired of singing

but because, for one reason or another, they'd only been scheduled for chorus during homeroom.

With this exception, the chorus worked on every morning, learning songs for concerts—both in and out of school. Occasionally Mr. Garrett would interrupt to correct one section of the group or another on their singing.

At nine o'clock rehearsal ended and the chorus dispersed to their various classes.

Council members Rich Joyce, Mark Guenin, and Dawn Darkes listen to the monetary results of the flower sale.

Steve Barber, council president, describes to a member the exact procedures of the upcoming money making project.

## Council Focuses on Students' Needs

Continuing their efforts to represent the student body and to coordinate their activities, Student Council maintained an active role throughout the year.

Along with the many regular functions they performed and sponsored, Council approved the formation of CB Club, sold boutonniers and corsages on behalf of Royer's Flowers to students for the Christmas and Spring dances, and donated \$100 toward the automatic judging and timing device for the swim teams.

Supporting school spirit, they began selling

Falcon pennants, jackets, and license plates at home football and basketball games, and paid for renovations in the Senior Lounge.

Various members exchanged with other schools during the year, and the officers met with assistant principal Mr. Robert Maurer to discuss topics such as discipline, lunches, assemblies, and other areas of student concern.

Commented freshman member Carole Katz, "Over at the Middle School the student council never had any use; it never did anything of

great importance; we just existed. But here you become a part of so many activities, although they may seem insignificant to some. You become really involved."

President Steve Barber added, "After being in council for four years, I hope that I've been able to contribute something to make Cedar Crest better for those who follow."

Sue Gordon makes a proposition which receives laughs from adviser Mr. Wilfred Sherk and fellow council member Lisa Thomasco.

# Summer Seminars Enrich Content

From the early planning stages in the spring of '76, through the journalism seminars and workshops during summer vacation, to the actual creation of the book and its completion in February, a constant effort—the blood, sweat, and tears type—was brought forth by the 1977 yearbook staff to produce a Cedar Log that would excel all others before it.

"To do a good book that records the year's memories in a good way, is what layout editor Beth Musselwhite described as the staff's goal. It required the combination of varied duties and talents.

Vickie Spang, managing editor, related, "I'm the one who made sure everything ran smoothly — pictures scheduled,

stories assigned and proof-read, and my people contacted. My responsibility was directly to the editor, while everyone was responsible to me," while advertising manager Fran DiFava commented in a more humorous view. "Although I was only indirectly related to the yearbook, it gave me a chance to do what I'm best at — nothing."

Work was accomplished during the allotted time in publications class, as well as in studies, after school, evenings, weekends, alleged holidays and vacations, and during any other spare time that could be scrounged up. Overworked typist's fingers, harrassed advanced alge-

bra students, and a bleary-eyed advisor were all by-products of the dead heats in races to those ever assailing deadlines.

Space was sometimes at a minimum in the publications office as the Cedar Log and Talon staffs confronted each other around typewriters, light tables, and the off-frequency antique office radio. "I like the way almost everybody got along with each other, not only in the two subdivisions (newspaper and us, yearbook), but together as a group," stated photo editor Lisa Enck. "Even if there were words thrown at someone, somehow, everything managed to turn out for the best."

ABOVE RIGHT Jan Her Pecking away, Jan Herschkowitz types diligently to prepare yearbook personalization list. ABOVE Labeling underclassman pictures becomes quite a job for Don Mease and Beth Musselwhite.

# MAKING A FEW BUMPS ON THE LOG

**FAR RIGHT:** Judy Hatter, Kathy Hoke, and Amy Dellinger concentrate on the news page layout.

**BELOW:** NEWSPAPER STAFF

**CLOCKWISE:** Amy Runkel, and Vickie Reppert, sports co-editors; Kathy Hoke, club editor; Steve Schmehl, editorial editor; Judy Hatter, academic editor; Mr. James Lester, adviser; Amy Dellinger, managing editor; Linda Mahoney and DiAnne DiNovi, feature co-editors; Marcia Kepley, editor.

## Larger Talon Provides More News

Meeting deadlines, making interviews, designing page layouts, and writing stories were just a few of the many duties encountered during this year's production of the paper.

Working with a larger sized paper this year, more problems arose. "Sometimes the problem was getting enough stories to fill up the page," stated Amy Runkel, sports co-editor. "Other times just doing a good layout was tough."

With United Parcel Service on strike almost half a year, at time the paper did not arrive on the Thursday before they were distributed. "Once we were delayed when a gear snapped on the composer," said managing

editor Amy Dellinger. "The papers were sent by bus to Lebanon, and Mr. Lester had to pick them up."

Reporters were an important part of the staff, receiving assignments from the editors, having to find information and then writing an interesting, informative story. "My biggest problem was not in interviewing, but with writing the second paragraph," said reporter Beth Musselwhite.

A great dependency grew between the composing staff and the editorial staff. The typists could be sure of receiving a call late Saturday night or early Sunday morning from a pleading editor begging them to come out

to school and set type on the composer.

Deadline week always seemed like the ultimate end. Page layouts were never started until Friday, and the staff would spend their whole weekend to make sure each page was finished to send to the Harco Printing Company by Monday afternoon.

Although things didn't always go smoothly, I think the staff fit together well, and that always helped make things go better, commented Marcia Kepley, editor. "Sometimes strange traits showed up in a person when they were under pressure. We were always thankful for the last minute."

**REPORTERS.** Nancy Loser, Don Mease, Lisa Wagner

## Clubs Construct Homecoming Floats

"We've done more this year than ever before," commented French Club president Lisa Mladenoff.

French Club started off the year by building a Homecoming float which commemorated the friendship between the United States and France by depicting the Statue of Liberty.

Traveling to Spinner's Restaurant in Hershey, members had the opportunity to taste French cuisine with such dishes as Escargots (snails), Quiche Lorraine (cheese, cream, and bacon pie), Soupe la Oignon Gratinée En Tureen (French onion soup), and Marquise du Champagne (champagne sherbert).

At the club's annual Christmas party, members ate yule logs and king's cake. First semester teacher Mrs. Susan Bucks was presented with a silver necklace and bracelet.

Commenting on her

year as French teacher, Mrs. Bucks stated, "it was one of the most enjoyable years I've spent in teaching. I grew very fond of the students, and I am looking forward to seeing them in my English classes."

Returning from maternity leave, Mrs. Kathleen Stanilla took over the club again at the end of January.

"I was glad to get back and was looking forward to teaching French again," she stated.

Members had a chance to try their hand at French cooking at the fondue and crepe parties.

Spring activities for the group included the annual Language Club activity night.

### German Club

For the third consecutive year, German club won first place in the halftime float procession at Homecoming. The float portrayed the Hessian Soldier's invol-

vement in the American Revolution.

The club sold Gummi Bears, a chewy German candy, as their money-making project during the month of October.

Over the Christmas holidays, club members visited various hospitals and retirement homes to sing German Christmas carols. *Fasting*, a German pre-Lent celebration, turned the cafeteria into a German festival with German food and a German Om-pa-pa band.

In the spring, club members visited the *Alpenhof*, an authentic German restaurant, located in Reading.

"I believe that the active members had a lot of fun, and there is still room for more members," commented Fran Leidy, club adviser.

German Club adviser Mr. Richard Braungard, assists Clay Bombardier with a German III assignment.

## Activities Surpass Previous Years

With its membership made up of Latin class students the Latin Club works toward one annual event—the Easter outing. According to club member Pauline Hackman, "We may not do much in Latin Club, but when we do something, everyone has fun, and it's something special!"

The outing was moved from Christmas to Easter because "too many activities are going on at Christmas and I felt it would be easier on everyone if it was held at Easter," commented Club advisor Mr. Ronald Lausch.

Steve Breit said, "I think of a fun organization with lively people and a good time for everyone!"

### Spanish Club

Performing a magic show, making Day of the Dead ornaments, and presenting information about different Spanish speaking countries, the Spanish Club met after school twice a month and participated in such activities at each meeting.

Featuring costumes and hand made flags from different South American countries, the Spanish Club lead the procession at the Homecoming game. However, due to the windy weather, participants had a hard time keeping their hand made flags together.

A Christmas party was also conducted where tradi-

tional Spanish food was eaten. A piñata was constructed in the shape of a snowman by a few club members. Sourballs, lollipops, and toy cars spilled from the piñata as it was broken.

For their money making project, the club sold Spanish lollipops, El Gaucho bubble gum, and sour fruit balls. Proceeds were used to help pay for club T-shirts, the Christmas party, and the Spanish meal.

# The Art of Goofing Off

Exhaust doesn't exactly have what you'd call a sweet-smelling aroma. But there's not much of anything else around to inhale while sitting out the night at 8th and Cumberland. Above the roar of nearby motion lotion-guzzling engines, downtown's Saturday night regulars are screaming their obscene comments back and forth from alley to alley, and I've stopped wondering why my head is beginning to have a large pain in it.

With a Corvette in front, a customized Pinto to its left, a patrol car waiting in the bank exit, and I in my Volkswagen watching the whole scene, the green signal finally decides to arrive. Everyone moves out quietly and cautiously, wary of the presently unflashing red lights lurking in the darkness.

A minute or two has slowly passed when I move into the left lane to wait-and wait, and wait, and wait-to pull in at that temple of the almighty burger, commonly called Mac's.

Lot's of places in the area are well-liked as rendezvous points to meet friends (or, ahem, 'others') at, such as Pizza City, Cedar Lanes, or Fun City, to name a few. But, McDonalds is probably the most popular of all, having throngs of loyal patrons visit them every weekend, as well as the other five days.

This favoritism as a hangout, as noted by Mac's assistant manager, Sam Purcell, "is good for business. We enjoy having all the school kids. We're glad to have them-sometimes on certain nights they brighten the place up. When you're night-shift manager, you sort of look forward to the kids coming. You know a lot of them and like to associate with them."

I finished my quarter-pounder (with cheese) and fries, wiped up half of the chocolate shake I spilled onto the car rug, then made a swing around Pushnik's to their back parking lot. Strangely enough, it was empty of the groups that usually loiter there, so I decided to head toward home.

The patients in the Good Samaritan must surely have appreciated the excess noise from two motorheads who suddenly peeled out ahead of me while passing the hospital.

After choking the hot rubber fumes out of my system, I turned onto my own quiet Birch Road and tended another cruise through fun-filled, action-packed Lepnon.

-Gary Hicks

# Fairy Tales Reenacted in Classes

A large variety of courses were offered this year in the Social Studies Department, including psychology, sociology, economics, political science, American history, geography and consumer education.

Freshmen and sophomores are required a year of world geography and one of American history, but juniors and seniors are allowed more freedom in choosing their social studies electives.

Celebrating the coming of the new year, Chinese style, was the highlight of the many festivities conducted in Mr. Gary Rohrbach's world culture classes. Various customs, foods and games from foreign countries were practiced by students during Culture Days.

The philosophy of an old Confucian saying was used by Mr. Gary Rohrbach, department head to summarize the social studies department, "Only the supremely wise and abysmally ignorant do not change."

## Quill and Scroll

Seventeen members of the publications staff were cited by Quill and Scroll, the International Society for High School Journalists for outstanding individual achievement in their work on the Talon, Cedar Log, and

## the Quest

Students selected for this honor first must show superior work in a phase of journalism or in school publication, such as writing, editing, management, or production. They must be a junior or senior, place in the upper third of their class in scholastic standing, then be recommended to the society by the adviser.

Upon the approval by the Executive Secretary of the Society, these students become members of Quill and Scroll and receive a gold pin along with one year's subscription to Quill and Scroll magazine.

## English Department

We spent a great deal of time on Middle States Evaluation-looking at the English Department objectively. While we found some genuine needs, especially in the area of reading both developmental and remedial, we found that the courses we offer are worthwhile and helpful. In my opinion, the greatest strength of the English Department is that our teachers are imaginative, cooperative, and capable," stated Mr. Edwin Zarek, English Department Chairman.

Many different courses were offered covering various aspects of English from basic grammar to Bible Literature.

Guest speakers were once again used to allow Humanities students to hear authorities on religion and supernatural discuss their topics and allow students to ask any questions they might have had.

Mrs. Susan Buck's speech classes had a chance to act out their fantasies by presenting various skits during class. Fairy tales were used as a topic allowing the students to use their imaginations and create their own zany versions of famous stories and tales.

## Club Members Backpack on Trail

Enduring rain, snow, rapids, and 20 degree weather, the Outdoors Club thrived on adventure and excitement. The Appalachian Trail provided both for about twelve club members who backpacked, camped, and climbed ten miles of rocky paths on the trail.

"I didn't want to go out for a sport because that is too much dedication for me. Being in this club enables me to participate when I want to," stated senior Chris Rousma.

About 45 students enjoyed cross country skiing, ice skating, and

tobogganing during the winter weekend at Eagle's Mere while others joined in separate events such as hiking, week-night skiing, and a rainy hayride.

"Our club has grown. The membership doubled and student interest and support increased tremendously," commented club president Sharon Stanaway.

### Gym Classes

Combining students into co-ed gym classes, the physical education department offered a variety of activities to stimulate student interest. Each gym instructor along with the aid of student teachers taught a

separate course to give classes a broad spectrum of electives to choose from throughout the year.

During the spring, fall, or whenever weather permitted sports such as field hockey, tennis, soccer, or orienteering enabled students to enjoy the outdoors.

As cold or foul weather approached and students were kept indoors, activities ranging from outdoor soccer to swimming, indoor games to self-defense, and a few classes of square-dancing kept everyone from being bored.

# Class Expands to Include Piano Lessons

Lack of student interest caused a few courses in the Music Department to be cancelled. Music of Broadway and 200 Years of American Music were dropped from schedules, while Fundamentals of Music was carried only in the second semester.

With ninth graders involved in the United Arts Program, both music teachers Mr. James Garrett and Mr. Robert Thine tried to give students ideas about other music courses and to interest them in taking music in their next three years.

According to Mr. Rhine "We teach a little theory, a little 200 Years of American Music, Contemporary Pop, Fundamentals of Music, and Music of Broadway each, along with singing and instrumental work."

The majority of students active in the music courses are split between band and chorus. Under the direction of Mr. Garrett, the four part homophonic style chorus was one of the smallest the school has had. Sectionals and hour classes gave Mr. Rhine the opportunity to develop the sound quality of the band

together and in separate parts.

## Organ Society

"I'm pleased to see that the class is expanding to include both piano and organ training because it seems to meet the needs of the students," commented Miss Ruth Killian, organ and piano instructor.

Because of student requests, piano lessons were offered for the first time in addition to organ lessons.

Along with providing music at the Christmas and spring concerts, and Baccalaureate, some students were substitutes in churches.

Others played at weddings, accompanied choirs, or provided pop music for programs.

Missa Catechumenorum, a Latin service for Easter, was conducted in cooperation with the Latin Club at St. Luke's Episcopal Church. Organists provided the music while Latin Club members sang Latin hymns.

Students had the opportunity to take a lesson on the pipe organ at St. John Lutheran Church.

Members of the Organ Society attended the annual Music Aides Banquet in May.

## Money Collected for Van

Medical Careers Club offered its members opportunities to learn about the different jobs that exist in the health field

Fifty-seven members heard various speakers from hospitals throughout the community, including Dr. Samuel Hartman, a local pediatrician, and Ron McClellan from McClellan's Pharmacy. The club also visited several hospitals and institutions in the area

Medical Careers Club headed the drive to collect money for a life support van, sponsored seven residents of Steven's Towers for Christmas and conducted a cupcake sale for the March of Dimes

The club is a member of Pennsylvania Careers in Health Club

### National Honor Society

"National Honor Society is an organization composed of a group of students who are truly outstanding in the school," stated Mrs. Ruth

Maud, adviser

New members were chosen on academic ability, character leadership, and service qualities by a teachers' selection committee Being one of the 60 NHS members had its advantages. NHS pins replaced the need for a hall pass, and members could also use an exclusive lounge adjacent to the cafeteria which included a ping-pong table

The group was not involved actively in money-making projects or trips. They did serve the school by tutoring students who needed help in various courses. This service was provided in connection with the Guidance Department

This year we also decided that dues wouldn't be collected since the organization doesn't need money for parties or jackets," commented president Sue Sprecher

## 'Behind the Scenes Men' Active in Productions

Taking trips in Pennsylvania and New York, the Astronomy Club did more than just gaze at the stars.

Philadelphia was the site for their first venture, as the club visited various scientific locations including Fels Planetarium and the Hall of Science.

Going to New York City on their second trip, the stargazers traveled to Hayden Planetarium, the American Museum of Natural History, and was concluded

by viewing a mineral show.

### Stage Crew

Besides their usual duties as "behind the scenes men" for the musical and the fall play, the stage crew was also actively involved in other school productions. They helped with the swim show, the gym show, the Christmas program, and the spring concert. Mr. Philip Kelley, leader of the backstage crew, commented "My stage crew never ceases to amaze me."

## NSA Sponsors FSA Trip

FSA began its second year by selecting officers and collecting dues of \$3. The club, which consisted of 19 senior girls planning on entering the secretarial field, chose Kathy Weaver as president.

FSA was quite active as the members of Cedar Crest, Lebanon High, and Lebanon Catholic chapters attended meetings sponsored by the National Secretaries Association of Lebanon.

The girls were initiated into FSA during a candle-light ceremony. A makeup demonstration at Boscov's, a career night explaining jobs available in the secretarial field, and a program on the proper way to apply for a job were presented to the girls. NSA also sponsored a trip to the Harrisburg area Community College in April.

Cedar Crest FSA members visited the Oakview Widows Home in order to entertain the ladies for an evening.

Seniors experienced a "day on the job" in March as they were sent

to various business offices through the county.

Mrs. Beatrice Saufley was the club's adviser.

### FBLA

Beginning with a Halloween party to get acquainted with new members, FBLA participated in a variety of activities during the year.

Christmas caroling at the Widows Home, Veterans Hospital, and the Good Samaritan Hospital preceded a Christmas party and gift exchange among club members.

Speakers included presentations on court reporting and the duties of a bank manager.

Fall and spring regionals at Lebanon High and Steelton-Highspire were attended by members.

In May, club members attended a state conference at Lancaster Host Farms.

Chocolate crunch bars were sold as the main money-making project of the year.

## Tri-Hi-Y Aids Families

Youth Education Association is a club with many different purposes. Not only does this club allow students the chance to student teach but it also affords students the chance to appreciate the teachers of the school through Teachers Appreciation Week.

This year, student teachers at Cedar Creek spoke to YEA members about aspects of student teaching and college. Their talks helped the members as they did their cadet teaching during Teachers Appreciation Week.

Teachers Appreciation Week took place May 9 through May 13. During the week students gave teachers apples, cupcakes, and gifts. Friday night an activity night took place for the teachers and on Saturday members of the club washed teachers' cars.

YEA members also attended a state convention April 12 and 13 where they exchanged ideas with members of neighboring schools.

Tri-Hi-Y

By serving the school

and community. Tri-Hi-Y also maintained fellowship among its members.

Initiation, a colorful and humorous event in the fall, evoked many laughs from students, teachers, and the members themselves. Incoming members were inducted into the society during ceremonies at school.

Fruit baskets were prepared and delivered to two needy families for Thanksgiving along with two handsome turkeys. Easter baskets were also presented to needy families in the spring. The club treated itself to a Christmas party in the cafeteria.

Sponsoring a recreation hop in November, the club earned enough money to contribute \$50 to the swim teams' new electronic timer and \$150 to the Life Support Van for mentally retarded children.

"I think we have had a well rounded year as far as activities go. The interest seems to be growing and maybe it will be even stronger next year," said president Lisa Mladenoff.

# CB Craze Initiates Club

With the purpose of distinguishing, honoring, and promoting the letter winning athletes, Varsity Club has grown to become one of the largest clubs in the school.

Projects undertaken included designing a float for the Homecoming procession, sponsoring record hops, and engaging in a money-making project to raise money for Varsity Club jackets.

Certain qualifications had to be met in order to obtain a jacket. Any person who had earned fifteen points or more received a jacket. Points were awarded from letters and certificates. Letters were worth five points and certificates one point.

## Vo-Tech Services Club

Vo-Tech Services Club capped off its year by having a hoagy sale to raise funds. Advisers Joseph Hartman and Ruth Wilson led the club once again this year and helped the officers coordinate a record hop and other activities.

Freshman Vo-Tech demonstrations were the most important activity of the club this year. Club members demonstrated the techniques used by many of the students in the Vo-Tech School.

## CB Club

'Breaker breaker'

"10-4 good buddy"

What's your twenty?

"Trucking over to the big CC for a CB Club meeting. Why don't you join me?"

During the past year the CB craze swept through the country and took root at Cedar Crest with the formation of the CB Club.

The purpose was to instruct the students in the proper usage of a CB radio while conforming to the present laws.

During the meetings members discussed the various types of radios and the advantages and disadvantages of each.

The club sponsored an ice skating party and a roller skating party as their money-making projects for this year.

Commented adviser Mr. Richard Braungard, "I feel the club is not active enough, but it's a new thing and new things take time."

Members of the club aided in three emergency situations during the snow days last winter.

Other activities included visits to the Civil Defense for a tour of the new emergency system and to the Lebanon United Monitor Patrol, a part of REACT.

# Three Strikes-Safe!

Bowling balls cracked as they hit pins, which proceeded to resound throughout the alley as they fell. A low hum from resetting machines and returning balls continually blended with other background sounds; blaring music from jukeboxes, bings and bongs from pin-ball machines, and the click-clackety racket from nearby pool tables.

Every Monday after school a group frequented Cedar Lanes, contributing to the never ending noise. Their meetings consisted of a game, that game was bowling, and they were none other than the Bowling Club.

Bowling Club gave stu-

dents the opportunity to bowl and compete at the same time. A total of sixteen three-man teams competed within the club. Each member paid \$1.50 to bowl, and fifteen cents of this went towards the cost of purchasing trophies awarded at the end of the year.

Players who obtained the highest average, highest game, and the highest series during the year each received trophies at the end of the season. A first place trophy also was awarded to the team with the most wins.

A self-supporting group, Bowling Club had no money-making projects to benefit the club.

# Co-op Program Popular

Diversified occupations, the work-study plan, and employment orientation were three of the cooperative education programs studied this year.

Over 70 students participate in the co-op system. They filled a large variety of jobs in the community, such as dental assistants, blood collectors, and data processors. Many students work as nursing aides and secretaries.

The majority on co-op were in Diversified Occupations (DO); a federally funded program with a quota.

Resembling DO, the work study plan allowed students to locate their own jobs. In another program, Vo-Tech Capstone, Vo-Tech students added to their training by going on the job during their senior year.

"The whole philosophy of co-op is that students will become involved in real work experiences that they can use after graduation," stated Mr. Joseph Hartman, the coordinator of cooperative education.

# VANDALISM

Dear Editor

I am fourteen years old. Some of my adolescent friends say there is no vandalism at Cedar Crest. Students say "if you see it in the Cedar Log, it's so." Please tell me the truth, is there vandalism?

Virginia

Virginia, your friends are wrong. They have been affected by the optimism of an optimistic age. They do not believe because they refuse to see. They think that nothing can be which is overlooked by their little minds. All minds, Virginia, whether they be editors or adolescents or adults, are little. In this great universe of ours, man is a mere insect, an ant, in his intellect as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole truth and knowledge.

Yes, Virginia, there is vandalism. It exists as certainly as murder and robbery and kidnapping exist, and you know that they abound and give to our life some of its greatest agony and pain. Alas, how happy would be the high school if there were no vandals. There would be no money wasted then, no windows to replace, no tiles to repair, no door closers to remove, no seats to refabric, no pipes to plumb. We should have no agony, except in order and cleanliness. The evil light with which vandalism fills the halls would be extinguished.

Not believe in vandalism. You might as well not believe in thieves. You might get the school board to hire men to watch in all the hallways and lavatories in every school on every evening to catch vandals, but even if they did not see them lighting fires in the wastebaskets, what would that prove? Nobody sees vandals, but that is no sign that there are not vandals. The most real things in the world are those that neither adolescents nor administrators nor teachers can see. Did you ever see someone writing graffiti on the caf tables? Of course not, but that's no proof that it isn't done. Nobody can conceive or imagine all the taxpayers' money that goes to replace the damage done by vandals who are unseen and unseeable in the school.

You can tear apart your locker to find what a friend has hidden inside, but there is a veil covering the actions of a vandal which not an honest student, nor even the united strength of all the honest students who ever attended Cedar Crest can uncover. Only self-esteem, pride, and personal integrity can push aside that veil and expose the concern for a once beautiful educational facility is impossible. At Virginia in this school it was and is possible.

No vandalism. Unfortunately, it lives and continues to thrive. One school year from now, Virginia, nay, ten times ten years from now, it will continue to live as long as we refuse to see it.

## Dr. Kessler Gets Honorary Degree

In an effort to, as Mr. Jay Lentz explained, "instill personal integrity and leadership qualities in rural students interested in agriculture," the Future Farmers of America maintained an active year through its various projects and activities.

Six members representing the Cedar Crest chapter journeyed to Kansas City

Missouri for the National FFA convention in November. Students also attended the mid-winter state convention at the Farm Show in Harrisburg. Competitions with other area FFA's, as well as recreational activities like roller skating, swimming, and snowmobiling were conducted throughout the school term. Approximately 300 mem-

bers, parents, and guests congregated for the annual banquet in the Middle School March 17.

Fund-raising projects included the selling of citrus, bologna, apple cider, starting plants and flowers (mums for Thanksgiving, poinsettias for Christmas, lilies and tulips at Easter) and farming the organization's 9-acre cornfield at the intersection of Evergreen Road and Lincoln Avenue.

Pennsylvania's highest FFA honor, the Keystone Degree, was bestowed upon Mark Pajski, Robert Adams, Scott Balsbaugh, and Robert Copenhaver. Dr. Martin Kessler, school district superintendent, was awarded an Honorary Keystone Degree for his help and support of the FFA.

## 'Tech' Trains Students For Future Careers

The Lebanon County Area Vocational-Technical School, designed to provide students with the skills and background for employment in industry and trade, has been a school away from school for over 190 Cedar Crest students.

Practical knowledge for the future in such areas including auto mechanics, cosmetology, data processing, electronics and food preparation prepare student for jobs after graduation or part-time jobs in the Co-Op program in their senior year.

Whether in the body shop filled with eye-stinging paint

fumes, the machine shop with its deafening grinding, or the food prep room surrounded by tantalizing aromas, the students have found a different learning experience a part from the high school.

Most of the courses taught are designed with the area businesses and industries in mind. Therefore, job opportunities are available for those graduating from Vo-Tech. Graded on various projects and activities, the Vo-Tech students complete these assignments in the field of their choice.

## Students Reveal Tech Experiences

Lebanon County Vo-Tech School has a wide variety of vocational and industrial trades. The skills which are learned and the responsibilities and opportunities involved are best expressed by the students themselves.

I will never forget in the life I spend on this earth, the enlightening experiences that have happened to me through Vo-Tech and the Vocational Industrial Clubs of America (VICA).

Self-confidence and self-satisfaction have erupted in me over my past three years at Vo-Tech. Most of all, I

have seen myself become a better individual. Working with people as State VICA Parliamentarian and sharing ideas with my own school and others have been wonderful experiences. All of these things have had a great influence on me as I have set my goal of being a Vocational Instructor.

To future students I say, take your challenge of four years of high school and to the best of your ability, make yourself happy.

- Bret Miller

I'd recommend Tech to anyone because it offers much needed experience

required in industrial trades.

- Larry Hess

Through Vo-Tech I was able to obtain what I needed to know about my career in data processing.

- Pam S. [unclear]

Vo-Tech has taught me an occupation in which I'm deeply interested in. It has also taught me to be responsible and how to work with other people. Tech has done a lot for me and I hope more people become involved in this great program.

- John Beard

annual governor's convention in Hershey, then president-elect Jimmy Carter meets with Governor Milton Shapp.

# beating proved, met-ed

An Annville-Cleona post graduation trip, which started out to be a weekend of fun, ended in the tragic deaths of four graduates.

The two car head-on crash killed Andrew T. Longenecker, Henry R. Schuch, Jr., and Eisenhauser and Gail L. Buchmeyer. Three persons from New Jersey were killed in the other car.

John Yorty, 83, known locally as "the Radio Man" was robbed and killed by seventeen year-old Michael A. Kents, who was locally known because he constantly carried a transistor radio with

him.

Forty-five of the nation's 54 governors met for the 68th National Governor's Conference in Hershey over July 5, 6, and 7.

President-elect Jimmy Carter, then trying to secure the nomination, and received endorsement from the governors.

Several hundred people gathered July 8 near the front steps of Old Salem Church to hear the reenactment of the first reading of the Declaration of Independence in Lebanon.

Of the many Bicentennial ac-

tivities that Lebanon Countians participated in, the highlight was

the Bicentennial Wagon Train passed through Lebanon County as thousands turned out to watch.

Burying a \$100 United States Savings Bond, which was worth about \$65,000 in 100 years, in a Coleman Park time capsule highlighted Lebanon's Bicentennial celebration.

Four hundred irate Met Ed consumers turned out on July 27 to protest the Public Utilities Commission's (PUC) \$17 million

rate hike. This hike provided a retroactive feature allowing Met-Ed to raise rates on consumers back a year.

The marchers met with Ernest Elliehausen, manager of the Lebanon plant to express their concerns and to present a petition signed by thousands of local consumers.

Archbishop Fulton J. Sheen, 81, one of the venerable spiritual figures of this country, visited Lebanon Valley College's convocation.

On September 8, Northwest

## SCHOOL TAKES ON A NEW...

This summer, dedicated students, teachers, and custodians search for ways to improve the school. During this past summer, many changes occurred in the appearance of particular areas of the school.

One unusual improvement was the painting of all the wastebaskets throughout the school. Painting the wastebaskets began when Mr. Louis Fratini, custodian, noticed their dull, run-down look. Mr. Fratini changed their odd rusty appearance to a bold, blue and gray color using left-over paint he found in the school.

Missing from the garden by the gymnasium, the huge cedar which once loomed over the garden has been removed and replaced by bushes. The symbolic cedar tree was re-located because it outgrew its old home and had to be moved to "cedar hill." In the place of the

great cedar, the statue of the Falcon was planned.

New murals now decorate the senior lounge to add vivid color and a relaxing atmosphere. The four murals depict members of the Marching Falcon Band, the Falcon mascot, school sports, athletes, and the "motorheads" featuring the new craze of CB sets.

The floor was shellacked, parts of the walls were painted blue and the lounging area was carpeted with multi-colored tiles donated from several area stores. Many students spent their afternoons and evenings this summer cleaning and painting the lounge so that it could be opened for the first day of school.

The light posts in the parking lot took on a new look. The bottom of the posts were painted fluorescent orange. Drivers can now easily see the posts and

*LEFT: Beneath the motorhead mural in the senior lounge, Penny Dissinger, Carole Raiger and Dennis Natale relax amidst rock music, comfortable chairs and good friends. BELOW: Borrowing the new driver ed car, Mr Dale Umberger and Mr Frank Hetrick, middle school gym teachers, tryout the new driving range*

# LOOK

hopefully can avoid any nighttime collisions

Senior Sheila Wampler created a Falcon plaque for the press box. Originally, the Falcon was going to be painted directly on the press box. Later, it was decided it would be easier to have the Falcon on a 4" by 8" piece of plywood to make it more convenient to take down for repairs. The idea for this project stemmed from the Falcon on the the band bus which also bears a small falcon on its back door

"Welcome to the home of the mighty Falcons," is the inscription printed on the wall when entering the boys' locker room from the gym. One of the walls is dedicated to all boys' sports by various equipment depicted by senior Dave Fake. These additions changed the drab appearance of the locker room to

a bright, colorful one

An observation booth was added to the new driving range located between the high school and the middle school. More students could be taught within a shorter period of time. An additional five cars were to be added so that the range could be used all year

Perhaps the most important addition to the school was the book detector in the media center

The loss of money due to book thefts has been tremendous over the past few years. Last year, alone, 617 books were stolen. When someone attempts to walk out of the Media Center with a book that is not desensorized, an alarm sounds and the gate locks. It's working fine, unfortunately I have caught students walking out with material," stated Mr. James Ickes

*ABOVE: The observation tower constructed to the left of the tennis courts, overlooked the driving range and student drivers upon its completion. LEFT: Sophomore Brian Weidman and Senior Arty Carpenter lean against one of the newly painted and decorated walls in the boys' locker room*

# disease kills, oil spills,

Americans sent a three-legged machine 500 million miles to Mars and a peanut farmer to the White House. They learned to live without red dye No. 2 and heat. Barbara Walters signed for \$1 million contract for her voice on primetime television. Volkswagen came to Pennsylvania and Concorde were flown by Britain and France from London to Washington in 3.5 hours for a fare of \$801.

North Koreans killed two M.S. officers who were cutting down a tree. Twenty-six children were kidnapped and buried in a bus before being rescued. Death took Smokey the Bear and comedian Freddie Prinz of "Chico and the Man." A pound of coffee hit \$3 and the Dow Jones averaged 1,000. King Kong returned, grits were in and 15 million Americans talked to good buddies on the CB Radio. America became 200 years old.

New York faced a serious financial dilemma, bankruptcy. Union officials called for pay increases to keep up with inflation.

Federal loans were due in July 1978 and seasonal loans of \$750 million in this fiscal year are due June 30.

July 4 brought us the long-awaited 200th birthday of our nation. Wagon trains from all 50 states ended their year-long journeys by converging on Valley Forge State National Park for a mammoth celebration that was attended by President Gerald Ford.

The American Freedom Train carried historical documents and priceless objects on its 21,000-mile journey across the nation.

Concluding the spectacles of the Bicentennial celebration was the reenactment of Washington's 1776 crossing of the Delaware River. Christmas Day. This surprise attack upon the Hessians at Trenton is what is considered a turning point in the Revolutionary War.

Last July 21-24, thousands of American Legion delegates assembled for their annual convention in Philadelphia. A month later, 29 persons, 27 legionnaires were dead, felled by a mysterious disease

which baffled authorities. Today the cause is known as a gram-negative bacillus which still remains unnamed. The mode of transmission however is still a mystery.

Bellyue-Stratford Hotel, site of the annual convention and a Philadelphia landmark, was forced to go out of business in November. Adverse publicity which was given to the hotel in the months following the disease made it impossible for the landmark to remain open.

Is there life on Mars? Viking, a 1,300-pound machine touched down on Mars in July after a 13-month trip. It bit into the crust and sent back messages which have left science still uncertain.

Mao-Tse-Tung, "Red God" of China, died September 9 at the age of 82. He was Chairman of the People's Republic—official head of state. His life stimulated the lives of almost one-quarter of mankind and brought enormous change, death, and upheaval to the world. His thoughts remain in a little Red

Book.

Patricia Campbell Hearst was kidnapped from her apartment in February 1974 by the Symbionese Liberation Army. Her violent conduct involved her with Bli and Emily Harris in Mel's Sporting Good's Store.

The newspaper heiress was sentenced to seven years in prison by the U.S. District Judge, William H. Orrick Jr. Hearst's sentence began September 26 for her role in the robbery of the Hibernia Bank. She was later released on \$100,000 bail posted by her father, William Randolph Hearst.

Expecting an epidemic of swine flu, President Ford began a nation-wide flu-shot program October 1. Within two months after the inoculations began, persons became subject to a rare paralysis called Guillain-Barre syndrome. As a result, at least nine states caused flu shot clinics.

"Swine flu scare" was prompted in Pittsburgh October 11 by the deaths of three elderly persons.

ABOVE: President Jimmy Carter and Vice-President Walter Mondale display victory smiles outside Carter's home in Plains, Georgia.

ABOVE RIGHT: The nation's first immunization program against swine flu was administered by an imposing air gun. FAR RIGHT: Mao Tse-Tung, "Red God" of China, died in early September and left almost one-quarter of mankind grief stricken.

Ray Gun, kicker for the Oakland Raiders, suffered the ignominy of having the first blocked punt of his career in the Super Bowl game.

# bicen finished, ford

# diminished

They died the same day they received their shot apparently of heart or lung complications. As a result Federal authorities suspended the nationwide program.

Assured of one party control Americans elected Jimmy Carter former governor of Georgia, to the Presidency with Walter Mondale as his Vice-President.

The smiling Georgian campaigned in every spring primary winning 15 and losing 14. Once nominated at Democrats' "love-fest" in Madison Square Gardens he lost momentum and barely defeated Gerald Ford, who had barely defeated Ronald Reagan for the Republican nomination. He latched 297 electoral votes—more than needed to win the election—with 51% of the popular vote.

As then President-elect Carter prepared to enter the White House during the period of transition Gerald Ford delivered his final State of the Union Address. Returning to his political home to give

an accounting of his brief but historical Presidency, he said he was leaving office with a feeling of pride, and the nation "more perfect" than he found it. Ford left the chamber with three minutes of standing applause punctuated by cheers.

Gary Gilmore, a 36-year-old married slaver was executed by firing squad shortly after sunrise January 17.

State officials appealed for one last delay hours before his execution, only to be overruled by the Supreme Court.

High level governmental investigations were sparked by mishaps involving seven Liberian-flag oil tankers in or near American waters.

December 15, Argo Merchant ran aground off Cape Cod, Massachusetts spilling 7.6 million gallons of oil. Two days later the Sansinena exploded in the Los Angeles harbor, killing nine persons and injuring 50.

Two thousand gallons of fuel was spilled into the Thames River December 24 by Oswego-Peace. Three days later the Delaware River was affected by a 133,500 gallon, 21-mile long spill from Olympic Games.

Daphne was next in the series of oil tanker related incidents as it ran aground in Puerto Rico December 29. No spill was reported. January brought yet two more accidents from Universe Leader and Oswego Glory January 5 and 7 respectively. Both were involved on or near the Delaware River with little or no leakage.

Cincinnati's four game sweep of the New York Yankees assured the Reds of becoming the first National League team since the 1921-22 New York Giants to win two consecutive World Series.

Tom Dorsett, Pittsburgh's super back, winner of the Heisman Trophy, put the Panthers where they belonged, on the top. The victory over Georgia, New Years

Day at the Sugar Bowl won them a national championship.

Several days after fighting Ken Norton and winning only by a narrow decision in the 15th round Muhammad Ali 34, announced his retirement. He was perhaps depressed over self-realization that his boxing skills were diminishing with age. His decision was later retracted, unretracted and retracted again.

In Super Bowl XI the Vikings of Minnesota and the Raiders of Oakland met in the contest of previous losers. Oakland came out with an impressive 32-14 victory.

USSR once again dominated the Olympics with gold medalists. But the Rumanian, Nadia Comaneci, walked away with seven perfect scores. Marks which have never before been accomplished. Bruce Jenner, USA, was the victor of the decathlon. USA also won a record five gold medals in boxing. The 1976 Summer Olympics were held in Montreal, Canada.

on Christmas Day. This was the final spectacle of our nation's bicentennial year. LEFT: Leaving

the basement of the San Francisco Federal Building, Patty Hearst is followed by matron Jerri Jewett.

# STATIC

## Perfect League Record Results In Second Championship Season

"I really enjoyed this season. I feel the guys did a terrific job. They worked hard and their attitude was great," explained Coach Frank Keath.

Finishing first in their division for the second straight league championship, the 1986 varsity baseball team completed an amazing 14-0 record in competition.

The one-two combination of Scott Richards and Steve Olson, backed up by Brian Klinger, closed down opposition on the mound. Only 25 earned runs were scored against the Falcons all season.

Outscoring their opponents 115 to 37, the slugging of Tom "Whitey" Miller, Steve Tilley, Kevin "Josh" Goshert, and Tim Hower proved to be too much for competition to handle.

One highlight of the season was winning the Elco Tournament, where Tim Hower earned the Most Valuable Player Award.

Beating Northern Lebanon, the Falcons clinched the title as they became division champs once more.

# Jayvees Capture Fourth Division Crown

The Jayvees, coached by Mr. William Dissinger, captured the Fourth Division crown for the first time in their history.

The Falcons, coached by Mr. William Dissinger, outscored their opponents 116 to 42. Led by Rick Lynch with a 400 average and a pitching record of 5-1, the Jayvees

compiled an impressive 12-3 record. Larry Showers, Brian Groff, and Dave Kuhn helped carry the Jayvees with batting averages of .300. Helping Lynch out at the mound, Scott Riegle and Tom Richards had fine records of their own.

The second year team was

matched against rival Lebanon High proved to be one of the most outstanding games. With 7 triples, a home run, and a few doubles, the Falcons defeated the Cedars 14-1.

"Overall, I was extremely pleased. They had the type of season I told them they were capable of having," commented Coach Dissinger.

FRONT ROW: Jon Bayley, James Landis, William Bishop, Richard Lynch, Brian Groff, Scott Weiant, Luke Sakalosky. ## Team Inexperienced, but First Season Champions

Finishing their first season of organized ball and obtaining the sixth athletic championship of the school year, the girls varsity softball team compiled an impressive 17-3 record.

The 18-member team, coached by Mrs. Michelle Lausch, entered the record books with 234 stolen bases, 24 homeruns, averaged 19 runs per

game and batted for a .451 average.

Despite the unusually cold weather, broken down buses and a few minor injuries, the softballers advanced to District III semifinals. There Cumberland Valley outslug-ged them 22-6.

"The kids were great. They wanted to win, and they did. Their

inexperience could have hurt them, but they out-ran, out-stole, and out-hit every team in the league," commented Coach Lausch.

An unofficial jayvee team directed by Miss Kathy McMinn, practiced as regularly as the varsity. They played two 7-inning and three 3-inning games.

# Grueling Practices Pay Off

Individual performances and personal successes marked the 1976 track seasons.

Leading the field in points won Randy Blessing tallied up an amazing 167 points, while setting a school record in the high jump. With the time of 10:25.7, Bob Machamer upset the school's two mile record. Also piling up points for the cindermen, Ken Allwein, Rick Mason, Steve Breit, and Mitch Fernsler made those grueling

practices pay off.

Bitter winds, a mini-flood, and very cold weather hindered the cindermen as they finished the season with a 10-1 record.

Squeezing by Lebanon High 79½-70½, the team captured a win in one of the closest meets all season. "It was one of those meets when everything went wrong . . . and we still won!" exclaimed Coach Glenn Hibshman.

Exhausted after running first-leg of the two mile relay against E-town, John Beard hands off to teammate Jeff Gill.

## Coaches Play Their Part Behind the Teams

Sports, athletes, and coaches combine to form one of the most important aspects of high school life. Teachers who become coaches at the high school level find themselves in another form of education outside of their daily 8 to 4 routine in the classroom. "Athletics play a vital part, I feel, in the educational scheme of things. For some individuals, it may be the only rationale for attending school. For these people, athletics is one of their few sources of enjoyment, accomplishment, or achievement; and that alone, I believe, justifies athletics as part of any educational institution's program," stated Mr. Gerald Ebersole, varsity wrestling coach.

Coaches and their philosophies are as diversified as the sports in which they are involved. From each approach, a few common points can be drawn out to encompass all: the need to instill discipline and competitive spirit, to teach basic skills and techniques of the game, and to encourage players to enjoy the sport whether they win or lose.

According to Mr. Ernest Firestone, coach for girls' varsity basketball and boys' tennis, he tries to teach young people to appreciate a particular sport, as well as develop teamwork in a team sport such as basketball and individual discipline in a sport such as tennis.

"I want the participants to enjoy swimming and yet do their best," remarked Mrs. Anne Boyer, girls' swimming coach. "It is important that they learn as much as they can about the techniques of swimming and relate training rules, competitive spirit, and self-discipline to every day living.

Utilizing a philosophy which could be applied outside of sports, former boy's varsity basketball coach Paul Wood related, "My approach to coaching is to try to instill in the minds of the young men, if something is worth doing, then you must be willing to put forth the effort to do it right. You only get out of a project what you put into it."

The tremendous amount of time in which a coach and his players share in practice and play make it necessary for a coach to develop a personal relationship with each player. "The coach should know the personality of all of his players because each player is different and should be handled differently," said new varsity baseball coach William Dissinger. "A good coach will recognize the moods of his players, whether up or down, and will handle him accordingly."

Depression in a player must be dealt with immediately by a coach to benefit not only the player but the team as well. Mr. John Davis, boys' swimming coach, uses his own reasoning to handle such a problem. "I usually try to find out the cause of their depression. If the problem manifests itself from a source outside the sport, I will try to find help for the particular person. If the cause is related to swimming I will counsel, give the swimmer some time off, or recommend that he terminate his participation with the sport. A depressed athlete does neither himself or his teammates good. Psychological stress piled on top of physical stress is debilitating to any athlete."

As depression can spell trouble for an individual, an excitable and high

strung temperament in an athlete can be potentially dangerous as well. Golf coach Fred Sherk feels that in such a situation it's best to show team members that the best golfers maintain an even keel. By avoiding or handling the highs, it's much easier to handle the lows. "If before a big match I think a guy is tight, I'll joke with him on the tee or give him some last minute sarcasm to loosen him up."

While few coaches resort to curfews of special diets in relation to their respective sports, one thing is definitely clear: good grades, whether during the season or out, is definitely emphasized. "I don't impose a curfew. With respect to special diets, I feel that this is unnecessary unless a girl is overweight. You can't develop in your full potential if you are overweight," stated Mrs. Michele Lausch, girls' softball coach. "I feel that grades are very important. A girl is a student first and a softball player second."

To many coaches, success is winning. To Mr. Thomas Allmon, gym club advisor, "Success is fun, and a sport should be fun. It is fun to win—the great coaches combine the two."

And to others success is reaching their potential. "I feel success is not just to win ball games," remarked Coach Dissinger. "It's to prepare young men to get the fullest measure out of their athletic talents. If a coach does anything less, then he's not doing his full job."

"Winning is a big part of success," added Mrs. Boyer, "but if a person or team is playing or doing their best, they are reaching success."

## Girls' Better Record; Doubles Enter States

It was a season full of devoted mothers due to early darkness, a season in which the juniors and the entire team gained much needed experience and most of all it was a season full of togetherness and happy memories. That is the way in which junior Amy Runkel described the 1988 girls' tennis season.

There is ~~concern~~ the season

with an average 1.9 record.

They defeated the three local teams Anvik, Lebanon and Eielson with Anvik having to return the next day because of early darkness only to be defeated by the Falcons 4-3.

Highlighting the '6 season was the 10th/11th team of Vicki Reppert and Sue Sprecher qualifying for state competition at Spunk's 1996 State

College after losing in the semi-finals round in District III. Deatles play

Five juniors were the team's starting line-up, with sophomore Dawn Lash playing the number six position most of the season.

The girls were noticeably improved and I'm looking forward to next year because everyone will be returning," stated Coach Kay Britt.

## Young Prospects Improve Team

While Coach Ernest Firestone was occupied with girls' varsity basketball, his boys' tennis team responded with cooperation and willingness by starting practices without his supervision. Pre-season snow, rain and unbearably cold weather soon limited and shortened those unscheduled practices.

"This year's boys' tennis team had the best young prospects since tennis began in our school," remarked Coach Firestone.

With Jeff Steckbeck, Adam Katz, Steve Kim, and Bob and Mark Shaver leading the team, the netmen scored five wins and ten losses with one game cancelled.

Reaching the .500 level is the team's goal for next season. One team member stated that the experience gained by the younger players will be a major factor to next year's team record.

# Golfers Swing Fore-Ward To Take Second League Championship

"This years team was the best ever and will always be the best because it can't be beaten, only equaled," stated Coach Wilfred Sherk, about the undefeated Falcon Linksmen who captured their second straight championship banner.

Defeating Northern Lebanon, their last opponent for the Section III Division Title, the golfers entered league play-offs. They then defeated Manheim Township and Penn Manor in a triple match by posting the lowest team medal score.

The team practiced every night weather permitting on their home course, Fairview, playing 9 or 18 holes. The number depended on whether or not the practice was the night before a match.

This season was a record breaker. Chris "Mouse" Koopman shot a 68, a 3-under par record for the home course. At Cocalico, Stu Ingraham also broke a record by shooting a 67, 3-under par.

For a golf first, freshman Dave Phillips was the only player to be un-scored upon since the beginning of golf competition nine years ago. Stu Ingraham and Lindsay Lape also qualified and entered state competition.

"Winning the league championship last year was exciting because it was our first league championship. But this year was even better because we won the league and had an undefeated season," explained junior Stu Ingraham.

# Girls Fight For First, but . . .

Making the best-showing in two years, the varsity field hockey team ended area play in second place with a 7-1-2 record. "It was the greatest season of my four years on the team," said senior Monica Krammer.

The girls prepared themselves for the season by attending the Eastern Hockey Camp in August, which was conducted at the Hill School in Pottstown. Five days were spent learning new techniques, improving the old ones, and among other things, getting blisters.

An exciting 4-0 shutout of Lebanon High was the first victory in three years against the Cedars. As Jody Zellers said, "When you're good, they know it."

Another team highlight was entering district playoffs. Junior Pat-

ty Fox, varsity goalie, remarked, "I felt that we had really worked hard, and we deserved to win it all." Unfortunately, Twin Valley eliminated the Falcons from District III competition with a 3-2 loss in the first playoff match.

Hampered by a young and inexperienced team, the jayvees combined hard work and determination to end their season with a 2-5-2 record. Miss Kathy "Mick" McMinn, a member of the varsity and jayvee hockey teams from 1967 to 1970 at Cedar Crest, returned to take up the jayvee coaching position. "Because I've played hockey, I'm more familiar with the game, and I know how the players feel after a win or loss. Returning to coach Cedar Crest, my alma mater, makes it special."

## ...SETTLE FOR SECOND

## In Tulpehocken Tournament

# De-booters De-feet Dem-all

Improving over last year's record, the varsity soccer team completed league play with a 6-7-1 season. "I was disappointed with our record. I think our team had the skills necessary to be a first or second place ball club," said varsity player Dave Lineaweaver. "But I liked the team and I was glad to be a member of it. It was our best team."

According to Coach Glenn Hibshman, each team gets better as a result of the midget soccer program. "Soccer must start when you are young in order for you to play the game well."

Triumphing over host Tulpehocken and Conrad Weiser in 2-1 victories, the booters took the Tulpehocken Booster Club Soccer Tournament. Each player received

a trophy along with a team trophy. This season Jay Dubble became the first junior from Cedar Crest to make the league all-stars while junior Luke Sakalosky and senior Dave Lineaweaver were given honorable mention.

Finishing the season with a winning 6-4-4 record, the jayvee team also improved their record by scoring twenty more goals than last year's squad.

"This was the best jayvee team I ever had," noted Coach Guenther Lutz, adding that the record was a result of the many promising freshmen.

Halfback Steve Barber succeeds in gaining possession of the ball from an Elco opponent.

Confronted by an Elco player, sweeper back Kevin Arnold follows through with his drive. ABOVE RIGHT: Backed up by goalie Greg Malloch and Artie Carpenter, Stan Wrotniewski blocks a scoring attempt.

No system of play works without running.

## Falcons Fight a Losing Battle

Finishing the season with a disappointing 0-9 league record, the varsity football team found their only victory in a 32-0 win against the Beavers of Lebanon Catholic in non-league play.

With coach Norbie Danz leaving to head the staff at Lancaster McCaskey, Mr. Dennis Tulli moved in to fill the head coaching position. Coach Tulli, formerly a coach at Annville-Cleona High School, could be found in the Guidance Office during regular school hours.

Returning lettermen included senior co-captains Dennis Natale and Scott Seibert, with Seibert receiving Lineman of the Week from the Lebanon Daily News; senior Dave Schmidt, and juniors

Mike Ward and Dave Kuhn. Seniors Ben Creamer and Dan Guenin were sidelined the entire season with pre-season injuries.

Leading until the last five seconds of the game, the Falcons were handed a tough loss by Muhlenberg Township. Hopes for a league win and a Homecoming victory were spoiled by a Muhl field goal for a final score of 15-14. Dennis Natale ran for 108 yards in the rushing department for that game.

The Falcons dropped a heart-breaker to crosstown rival Lebanon High, losing by a score of 14-6. Trying for a comeback in the last seconds, Bob Shaver recovered a Cedar fumble, and the Falcons almost scored when Steve Eisenhour was driven out of bounds at the nine. But time ran out and the Cedars captured the win.

# JV's Learn from Mistakes; Frosh Remain Undefeated

Rounding out their seasons with 1-5-1 and 5-0 records respectively, the jayvee and freshmen football teams finished league play more mature and experienced.

Even though Lebanon Catholic was their only win, the jayvee gridsters remained optimistic. Top players for the team were junior Frank Schott and sophomores Jon Bayley and Steve Gergle.

Coach Barry Heckard was not disappointed with the season, however. "Jayvee football is for experience. It's important that everyone gets to play on the team. If we won, great; if not, we learned from our mistakes in the game."

Finishing undefeated, the frosh grabbed the league championship. The season was short but challenging for the little gridsters. This was the first year eighth graders were not allowed to participate in freshman football. Nevertheless, the team consisting of 41 players was larger than previous years.

"I knew the potential was there. The team put out a lot of effort and came through with a great season," commented Coach Paul Vranesic.

## Striving to Keep Spirit Alive; Boosting Their Team's Morale

"The attitude of every girl on the squad was just fantastic. We were very close to each other and liked to work together as a unit," stated varsity cheerleader captain Rain Bernhardt.

During the months of summer vacation, the 11 members of the 1976 varsity cheerleading squad could be found at school every Tuesday and Thursday from ten till twelve in the morning. Hard at practice for the beginning of the football season, they not only rehearsed cheers and chants but went over dances, songs, and skits for the upcoming Sports Day '76. This

day consisted of entertainment by a cheering squad every fifteen minutes in the auditorium, ending with a huge pep rally in the gym.

The girls were also busy at work other times that summer in the guidance office, putting together the varsity football team's playbooks. "After stapling and punching eighty-some playbooks, we had practically memorized every play. We were ready to go out and play football ourselves," said junior Kate Horst.

Outfitted in new uniforms, the varsity squad strived to keep spirit alive by their smiles, enthusiasm, and continued cheering throughout the football and basketball seasons.

The weather during football season was very cold and many of the games were in the rain. We looked forward to the basketball season inside and with the crowd being closer to us," remarked Vikki Koehler.

Constantly confronted with small crowds and few spirited fans the field and mat squad continued to cheer on the wrestling and soccer teams.

"I loved to cheer for soccer especially, and I feel more people should come because soccer is a varsity sport," replied Pauline Hackman, a sophomore. "The people that did come did cheer with us, and that made it all worthwhile."

The 10 member field and mat squad, led by captains Sheila Wampler and Tammy Fasnacht, projected twice as much enthusiasm to make up for the lack of fans.

"Even though it was usually just cheerleaders cheering out there, it was nice to know someone was for us. It helped to boost the team morale," commented senior soccer player Greg Malloch.

# Seniors Lead JV's; Forgetfulness Plagues Frosh

Not limited to just jayvee sports action, jayvee cheerleaders got to share the varsity spotlight by relieving the varsity squad during the third quarters at football games.

The squad was put together a little differently this season. Two seniors, Cookie Brownsberger and Lynda Snyder shared the responsibility as co-captains. The co-captain situation was not new, but senior girls within a junior varsity squad was. "I'm glad I was in the JV squad because it gave me a chance to know the underclassmen. This was the first year for seniors in this squad, and I hope they continue it. I've had a lot of fun," said Cookie.

Lori Jackson commented on the basketball season. "The cheers were more gymnastic and we were closer to the crowd. The fans responded more and there was more of a vocal rivalry between schools."

Mrs. Patricia Reich, middle school gym teacher, advised the freshman squad. Cheering only at away games within a 10-mile radius, the girls missed one football game. "We still went to Ephrata to watch our guys, but we weren't allowed to cheer," explained captain Linda Fick.

Along with 30 other cheerleaders, the ten newcomers practiced during the summer and their first cheering assignment was on Sport's Day, the first week of school. "The older girls really helped us a lot and that first pep rally was the best part of cheering. My ears held that sound of everyone cheering as loud as they could for a long time," said Lori Shaak, sub-captain.

"I liked cheering for a winning team. We've all been close friends and the guys on the team treated us special and that's what makes

cheering all worthwhile," remarked Kelly Loehr.

Each cheering squad has its idiosyncrasies, but an unusual twist to a common group experience plagued the freshmen—forgetfulness. "It never failed, one of us was always calling home for some forgotten item. But it wasn't because we were forgetful, it was just that we'd get really psyched before a game. I don't want that to sound like an excuse, because we really did get psyched," explained Carole Katz.

A first for the squad was performing in a cheerleading competition.

BELOW SENIOR GIRLS BASKETBALL  
LETTERMAN Tina Altheim and Sue Sprecher, Monica  
Kramer is captain. In LEFT Lebanon Keist  
grabs the ball from her opponent's hands during  
a home game. RIGHT JoAnn Ramsey gets inside  
the key for a lay-up.

## Undefeated in League Play Girl B-ballers Capture Title; Lebanon Toughest Opponent

Returning undefeated in league play, the girls varsity basketball team finished with a perfect 14-0 record to make girls basketball a story to tell. Not since 1967 is the girls team been undefeated in the league, also capturing the section title in the season's last sport meeting at Cedar Crest.

Returning to lead the team through its perfect season were the captains, Tina Altheim and Sue Sprecher, and Monica Kramer. Altheim, who became top scorer in the year followed by Sprecher, kept the team's lead. Wagner, a member of the team, helped the players to a solid

Double, Lebanon Lebanon. The team won its league title by defeating Lebanon in the girls team, Lebanon first game against the Lebanon girls was a 10-0 victory. Lebanon then defeated Lebanon in the girls team, Lebanon first game against the Lebanon girls was a 10-0 victory. Lebanon then defeated Lebanon in the girls team, Lebanon first game against the Lebanon girls was a 10-0 victory.

## '32 Falconettes' Swim for Best Season Ever

"This is the year we can do it!"

season. This comment definitely was truly optimistic because the team had its best season ever compiling a 11-2 overall record.

Nine seniors led the team this year, eight of which had been on the team in ninth grade in order for it to become a varsity sport. "The swim team changed so much. When it started it was just a couple of individuals, now it's a team," said Jean Goetes. Jean

Lindsay Lape, and Kelly Lightner are captains for the team.

Swim has always been a major part of the team. It was shown by stickers worn by the swimmers during the day of the meet. But at the meet, though, is ready where the team "let loose." Creating new cheers and performing "32 Falconettes" was all part of the mermaids image.

Complaints and groans about practice turned into joyful tears of laughter and happiness when the team defeated Watson, a team which had beaten the Falconettes in the three previous years.

It was also a first for the amount of yardage ever done in practice.

2000-6000 yards were swam every day during the 2 1/2 hour practices unless there was a meet the following day.

This year the 200 medley relay team of Joy Musheno, Kelly Lightner, Sherree Lightner, and Cindy Sullivan placed first in district competition and again entered the state meet as they had last year.

McDonald's, the favorite restaurant for the weary swimmers on the way home from an away meet was stampeded by the winning team, whose characteristics were wet hair and chlorinated eyes.

New records replaced the old with Kelly Lightner owning five individual and being a part of two relay records.

## Mermen Set Five New Records

Finishing the year with an 8-4-1 record, the boys' swim team ended their season with the best record ever. According to Coach John Davis, "It was our best percentage record and we set more school records than our expected period. In my opinion, it was a very satisfying, very rewarding season. We will miss the seniors; it will put a big dent in next year's lineup. In the same vein, there are many talented kids returning."

During the season, the Edison swimmers broke five records. The medley relay was broken by the team of Brian Sanger, Stan Wrotnowski, Doug Ruch, and Scott Tobias. Tobias also tied the 100-free standard. Ruch

set a new mark in the 100-fly and Tom Behney bettered the 500-frees. The free relay team of Sanger, Tobias, and Ned Wolfe lowered last year's record.

One of the season's highlights was a disappointing tie with Governor Mifflin due to a questionable incident, and a close loss to Hemphill ended the regular season as the Falcons closed league play with their highest finish.

At district, the medley relay team placed fourth and fifth places were captured by Stan Wrotnowski in the 100 breaststroke and Cory Blessing in diving.

"I've really enjoyed my experiences with swimming and I've learned a lot from it. It's given me many good memories. One thing I'll never forget is the time Joel Harter was in the middle of a fierce swim off and on the third lap he lost his swim suit."

-Stan Wrotnowski

## Wrestlers 'Wrassle' Tuff Season

Wrestling in the Lancaster-Lebanon League, the grapplers had a few close matches but lack of experience hindered them. "Next year things will start to turn around. I expect several team wins. The middle school program is a big help in that it introduces the students to the sport so they know what is expected of them when they get here," explained Coach Jerry Ebersole.

"We're losing a few good seniors such as Tim Perry who has more wrestling knowledge than any previous wrestlers I've coached. Rich Pyles also did well with his strength as an asset to him. Dave Smith and Howard Horst had some fine performances for their amount of experience. As for Bret Miller, I'll miss him because we won't have anyone to replace him. I was very pleased with freshman Gary Rhine and

Dan Achenbach. They show a lot of promise and should be fine wrestlers when they are seniors," commented Coach Ebersole.

Former Falcon wrestler Steve Keller is proved to be very helpful with coaching jayvees as well as varsity. Mainly working with jayvees, Steve introduced some new moves and kept notes on individual matches.

"I think we did pretty well for our age, sometimes I had to wrestle juniors that had more experience than me. We could have done better with more support, but as a team we stuck together," stated freshman Craig Leisen.

**BELOW LEFT:** Declared winner of the 118-pound match, Bruce Keller boosts his personal victory. **ABOVE RIGHT:** Preparing for a take down, John Deck studies his opponent's style. **RIGHT:** In an attempt to score a two point takedown, Richard Pyles advances toward the wrestling team member.

## Now It's Us

It was a long wait. Twelve years of high school, middle school, and elementary school, and finally after watching friends, relatives, and everyone else graduate, we were there ourselves. But as we ended our senior year, we sat back to review our high school life.

Sounds of pep rallies and football games, Mr. Sakalosky's announcements and other miscellaneous items will soon be forgotten or misplaced. Experiences such as pizza selling, dance decorating, taking over WAHT radio station, a bomb scare, and co-ed gym classes could be useful in years to come. We shared first place with the juniors in the hall decorating contest two years in a row, were led by two different class presidents and three permanent officers. We entered as the largest class and left as the smallest. All this fell into a category not quite explainable, yet not easily forgotten.

# Council Revives Treed Tradition; Member Toils on Halftime Float

The one incident which I will remember about Student Council was the creation of the 1975 Homecoming float. I was in charge and was responsible for a beautiful float or a horrible mess. In the making of the float very few people showed up, and a lot of my own effort was put into the construction. After a while it became a pain to work on, and I just wanted to get rid of it. It was all worth it though, once I saw the float traveling around the track at halftime in representation of our organization.

- Steve Barber

Once during my three years in Student Council we decided to revive the old tradition of buying a Christmas tree and decorating it to

place in the school. Not even a week after we put up all the decorations, kids stole all the ornaments off the tree. We know better than to do that now.

After the freshman members of Student Council are elected, it is traditional at their first meeting to stand up and say why they wanted to be in council. My junior year someone jokingly added that they must go around and shake everyone's hand. Everybody knew he was kidding, but the first freshman to stand up took it seriously. Everyone almost died laughing when he went over to shake hands with the nearest member!

## Co-op Blends School, Work

Working under the Co-Op program has given me the opportunity to meet people. It also made it possible for me to receive my high school education and earn money at the same time

- Mike L. Moyer

Co-Op enabled me to take all of what I learned in my three years of business and put it into practice for the future. I sat behind a secretary's desk and did some of her duties. It made me hope that someday I'd have a position like her and be an important part of the office

- Chris Hansell

The Co-Op program opened up a great outlook to my future. Not only has it given me a head start after school but also the feeling of really getting someplace in life. My job was full of challenges which made it exactly right for me. Co-Op was the best thing that could have happened to me in my senior year.

# Officers Grin, Remember

The funniest thing that I remember from being a class officer was during my freshman year I was collecting dues and Lance Purnell gave me three dollars in pennies. During the following class I dropped them all over the floor. What a mess!

- Fran DiFava

Four years of service to my class provided me with many memorable experiences with the Spring Dance heading the list. It was probably the most important project that I was in charge of. We worked for weeks preparing decorations and making plans. Finally the Friday night before the dance we put up all the decorations. It was beautiful! I was so proud!

- Tom Behney

I've been class secretary for four years, and involved with four people through everything our class has undertaken. I remember things that we've gone through.

As freshmen, Fran DiFava, Tom Behney, Lori Burrus, and I went to Youth Appreciation Day at Hershey. We argued an entire class meeting about a trash can.

The Christmas Dance was our first activity as sophomores, and Dan Guenin became our new class president.

One day the officers took off to visit prom sites and picked the Lancaster Treadway Inn. We worked on the expensive but beautiful Spring Dance. Both were our junior year.

Finally as seniors, we fixed up the lounge, picked graduation announcements, went to the Prom, and were together at commencement.

It was four years of minutes, dues, advisers, projects, t-shirts, and yet so much more.

## Senior Lounge: CCHS 'Shrine'

I never say any unusual incidents happen in the lounge. Just everyday occurrences went on - tripping over a chair, getting whammed in the face with a ping pong paddle, having a ping pong ball land in your lap, and having an empty soda can accidentally "hitting the back of your head causing a sizable lump to appear. Other than those everyday things, there weren't any unusual happenings.

- Lisa Wagner

One of the things that an underclassman looks forward to is being in the senior lounge. It's sort of a reward and is someplace only we seniors could go. It was like having one up on all the others

- Howard Horst

A place to study, relax, or gossip - no, not the commons but the famed senior lounge! My most memorable experiences took place in this CCHS shrine. I'll never forget the time that the lounge was closed two days after it was opened - what a class!

## March, March, March, March!

Before the first Lebanon High Band Competition everyone was very nervous. Silks were going through their routines and suddenly my silk broke in two. Our band was moving out, and we were running around trying to find tape to fix it. But we made it.

Our band went on the field. Lines were crooked. Nothing was going right. At the end I went in to Lisa Enck's place, and she didn't have anywhere to go. Yet we came home with the first place trophy!

- Mel Snoke

The one event in band that I'll never forget was the day of the state championship in my junior year. I remember this the most because that afternoon we had a football game to perform at, then we took off to Philadelphia, and we were late. We did our show and won 2nd place with 1st place in general effect. Then we left Philadelphia and hurried to a parade in Myerstown that evening.

- Greg Horn

My most memorable experience in bandfront was the 1975 Lower Dauphin Band Competition my senior year. We had competed in this competition the last two years and both times came in last place. We went hoping to redeem ourselves and be awarded for all the time and effort we put forth in the last few months. That night as we marched on the field, members of the Lebanon High Band cheered for us in the stands. With their support, our performance was the best we had done all year, and we were awarded the first place trophy.

# Staffs Toil Hours After School Long Weekends, Late Nights

I'll never forget sorting Cedar Log subscription envelopes after school, ready to kill all the students who forgot their home room numbers, or having them all sorted then dropping them on the floor. Another time Mr. Sakalosky took down my poster because it encouraged students to buy the Talon instead of their lunch."

- Jan Her . . . itz

Through all the headaches, heartaches, and longaches, the yearbook staff went through, the yearbook will be the best ever. Even though weekly deadline wasn't met, somehow through miracles and the racking of brains we made it. Sometimes when things just wouldn't work there would always be someone there to help

We were a family and just like flesh and blood we had misunderstandings, yet we felt for each other.

It was a very memorable experience and everytime I open the '77 Cedar Log, I will reminisce about the good times and the bad.

- Lisa Enck

Long weekends best describe my duties as editor of the newspaper. Even though we practically lived at school - we even considered bringing sleeping bags and Coleman stoves - we did have fun

Monday afternoons were always welcome after everything was finished and the paper was finally sent away to be published

# A Quick Dash; A New Queen

I thank my mother for her speeding ability from the Girls' State Golf Championship at Hershey to the halftime ceremonies at Cedar Crest in sixteen minutes. While mom passed cars and took turns with a "lack of speed" I nervously thought of the big moment on the football field. Never have I felt such an exhilarating moment as that when I ran on the field to join the other girls!

- Lindsay Lape

Ever since they named the ten finalists, I had been nervous about the whole weekend. As I went past the stands at halftime I took one look at my friends and had to cry.

As I walked into the dance, I was happy about being a finalist but never expected queen. As Lori Burrus announced the runners-up, my body was becoming numb, and my heart was beating fast. When they announced me as queen my mouth dropped open, and I stood there not knowing what to do. I felt a sense of relief when Barb Ail kept making me laugh. I have to thank Barb, Pep Club, and so many people for that which will always be a part of me.

## Girls Remember Rain, Cold, Fun

My memories of being a cheerleader will always remain a part of me. I'll never forget when the soccer team sang about how they would miss us.

The whole season was a time of sharing with the squad and the soccer team - mascara running from the pouring rain; numbness in the freezing cold; the laughter and embarrassment of forgetting our cheers; the disappointment of defeat and the silence after the last game, realizing that after this, our senior year, we would never have these experiences again.

- Carole Raiger

As a freshman, I can remember hearing remarks from other schools saying Cedar Crest didn't have spirit. I am happy to have seen the change, caused by our class, so that now we have just as much spirit as any other school, if not more. I felt proud hearing compliments by the Lebanon High cheerleaders, who could not believe how great our pep section was. I hope that the other classes take over and keep Cedar Crest on top in spirit!

# Fall Play, Musical Include Falling Flats, Flying Canes

In the second act of Oklahoma I play Ali Hakim, who is angry because Ado Annie has tricked him into marrying her. I stomp around and throw my walking cane to the ground. Well, on opening night I started stomping, then threw my cane. It hit the floor, bounced up into the air, and landed on one of the kids in the orchestra. I can still see the bewildered look on his face

- Bret Sidler

After the Saturday night performance of Oklahoma, the whole cast went to Mac's. We were in full make-up, costume, and everything. To top it off, as we were sitting at the tables eating, we were singing

songs from the play. The policemen looked at us as if we were crazy, but I could tell they enjoyed it

- Rick Felty

For "The Skin of Our Teeth", one of the most talked about things was how well the stage was put together. One night during rehearsal for the third act, a flat started to lean. No one really thought about it though; the flats were supposed to lean in some instances. So while saying my lines, I had to lean over and prop it back up. It kept falling and eventually I was holding the flat up with both hands. Finally the Stage Crew came to my rescue.

# Tech Develops Personal Pride

Meeting and working with new people at Vo-Tech has helped me accept more responsibility. At Vo-Tech they prepare you for work when you graduate and sometimes earlier in the Co-Op program. I enjoyed Vo-Tech because it taught me a skill which I can profit from later in life.

- JoAnn Werth

I remember the first time I fixed a radio at Vo-Tech. It was so exciting to see it work again, and I felt proud to hand it to the customer.

Vo-Tech has given some purpose to high school for me, even though many people ignored me or put me down because I was attending Vo-Tech, which wasn't really fair. I was, in fact, proud to be a student there. It was something to look forward to each day, something practical of the many theoretical courses offered at Cedar Crest.

## 'Slip-Getters' Sit It Out

Detention wasn't exactly the best thing that I went through at Cedar Crest. After you skip a class you listen to the afternoon announcements and if you are called to the principal's office you know that you have to sit in detention the next day. When I had homework I could get it done in d-hall, but most of the time it was boring. The only time that detention was any fun was two years ago when the teacher in charge didn't show and everybody left.

Chris Gardner

At detention there was a certain teacher who believed in hitting the kids over the head with books. A student fell asleep so the teacher just took a book and hit her on the head. I never heard of waking someone up that way.

Since I went to detention I've learned to obey rules and to respect the principles behind them. But for some students detention isn't the answer. Many times detention causes a student to rebel against the establishment and to disrespect authority.

- Deb Hunsicker

**FAR LEFT:** Band president and saxophone player, Dave Witter, practices 'Russian Sailor's Dance' at band camp.

## No If's, And's, Only Butts

The best time that I had in the smoking lav was when we had water battles, and everyone got wet. Another time we had a radio in the lav and had a sing along.

One day the toilet overflowed and everyone came out screaming.

We usually had a lot of fun, but there were bad things about the smoking lav too. I didn't enjoy sitting on the floor, and when there was no vent the smoke would really burn my eyes.

- Kathy Dry

One day we were cleaning the smoking lav with acid. Kathy Dry was running around in just her socks, and the acid ate holes in her socks.

# Goggle Garters, Male Coach, Lost Diamond

We were on our way to winning the first girls' softball title. We played one of our best games, and our coach was overjoyed. When she was waving a player around third, the game was stopped not because of an argument, an illness, or even illegal play. Her diamond had fallen out of her engagement ring. We celebrated this big event on our hands and knees searching for her diamond.

- Lori Burrus

During a tennis match my opponent returned the ball to me and swinging my racket I hit the ball. Unfortunately, the ball didn't go back over the net, and I looked everywhere for it. Up in the air, behind me, in front of me - it was nowhere to be found. A burst of laughter came from my opponent, and I looked at my racket - the ball was stuck in the handle. I laughed too, but unfortunately she got the point.

- Amy Runkel

During my junior year Mrs. Snyder became pregnant, and Mr. Firestone had to replace her. The unusual thing was having a male coach try and get him in the locker room before games!

- Tina Mulholland

I can't think of any team that greeted visiting teams the way our girls' team did. Right before the start of the meet, the whole team lined up along the side of the pool - soaking wet, goggles wrapped around our thighs as garters, and everyone belting out that swinging song, "We're the 33 Falconettes!"

## Artists Involved With Plays, Pottery, Prints, and Paint

While working on the spring musical (Oklahoma!), Mrs. Eberly asked me to paint this certain building orange. I didn't think this color was right, so for fun I dumped a half container of brown paint in the orange. The brown made the color dull and when used it gave the building a look of age. I'm just glad that Mrs. Eberly never found out. She would have skinned me alive!

- Don Mease

The sale of my first batik is by far my most memorable experience in art. I couldn't believe that someone wanted to buy something I had made, but then I felt proud of myself for making something good

enough to be sold.

- Lisa Schreter

Art was my favorite pastime in my four years at CCHS. In addition to my art classes, I spent any free time in the art room. I remember the first time I tried to make a pot on the potter's wheel. I was so proud of it, but I finally consented to scrapping it and trying again. It was bad! After several tries, I finally caught on and successfully made my own collection of pottery. I also enjoyed doing work for the school, like making things for culture days in Mr. Rohrbach's class, programs for the plays, and painting trees on Mrs. Maud's walls.

# What Happened To 2nd Base?

During baseball practice, Coach Keath was telling the second baseman and me what to do with runners at first and third. While he was explaining things that we could do, I was talking to my fellow shortstop, Mike Demey. Well, when Mr. Keath told me to take second base, I ran over, picked it up, and with all seriousness said, "Where should I take it?" Well, I was really embarrassed.

- Kevin Goshert

We were playing ELCO in an away golf match, and my opponent was regularly their number two man. It would have been an upset if I won. Mr. Sherk told me that I'd have to play my head off to win. I not only won, but I shut him out. It was a great feeling when Mr. Sherk congratulated me.

- Dave Witter

Two years ago we swam Hempfield at our pool. After the pep talk, Mr. Davis told us that no Cedar Crest team had ever beaten them. He really thought we could.

Well, we were all doing our best times and were out to win. At the 100 yard backstroke, Brad Grimes, myself, and Mike Gerdes swept the event. But one of our swimmers accidentally flung his towel in my lane after I was finished swimming. When the Hempfield coach saw this, he made a big deal out of it, even though it didn't interfere with any of their swimmers. We were disqualified.

All of our points for that event were given to them, causing a 26 point difference in the final scoring. We ended up losing by a slim margin. If the towel bit wouldn't have happened, we would have "cleaned their clocks" easily.

## Juniors Mix with Seniors

A senior is a student who stands at the greenhouse and watches underclassmen go by. A senior is a person who is always to be found in the Senior Lounge, most typically with a ping-pong paddle in hand.

There always has been and always will be a certain aura about the word "senior". It is a person who everyone looks up to, everyone follows. Each year everchanging classes and everchanging students keep the never-changing role the same.

As a junior, a variety of classes enables each junior to pick different subjects. Some juniors find themselves in the same classes with seniors. In these classes juniors realized that seniors were just like themselves except a year older, hopefully a bit wiser, and with a few

more responsibilities to handle.

"Being with many seniors in my classes this year, I discovered how really funny and human the seniors are, and they are not as infallible as many of them seem," commented Paul Slayton.

Most juniors discovered that being in a class with seniors changed class ever so slightly. They found seniors made classes more interesting, introducing new personalities, ideas, and friendships.

Lisa Thomasco came upon her own conclusion as did many juniors. "I really enjoyed having classes with seniors, because they added more life to the class. They weren't snobs like people said they were. I think seniors are just like us."

## Having More Freedom Means Responsibility

It was being called an upperclassman. It was having more freedom, more variety in classes, getting more involved in activities. It was being a junior.

Juniors were more aware that more freedom meant more responsibilities, one of which was driving. "I've looked forward to driving every day instead of going on the bus," commented Arden Snook.

College-bound juniors had the task of taking the PSAT (Preliminary Scholastic Aptitude Test) and SAT (Scholastic Aptitude Test) knowing college was in the not too distant future. "I began looking for colleges and

universities I'd like to attend," remarked Angelo Beattie.

Above all else, one thought dominated the junior year. It was the fact that the next year would be the best and last—they'd finally be seniors. All the things that meant they were seniors—being tops in the school, taking charge, the senior lounge, co-op, the prom, and graduating—were soon to be within grasp.

Reflecting this attitude Frank Schott said. "The biggest thing about being a senior is graduation day. Then I'll know I really achieved something."

## 'Color My World' Theme For Dance

Talent, skill, and fun combined to make a very profitable year for the Junior Class.

Utilizing tin foil, crepe paper, and paper objects, members of the Junior Class descended on Junior Hall to prepare it for the second annual Hall

Decorating Contest. Combining all their creative abilities, the Class of 1978 tied for first place and was the recipient of a \$25 prize. Pep Club sponsored the contest.

"Color My World" was the chosen theme of this year's Spring Frolic

held March 19 in the high school gymnasium.

A money-making project was conducted to boost the class treasury as the class continued to prepare for their Senior Prom at the Hershey Motor Lodge.

## Classes Tie In Contest

Besides cheering battles at pep rallies and sporting events, Pep Club devised another event in which classes could compete against each other. The Hall Decorating Contest, in its second year, had classes trying for first place and a \$25 prize. Both years the classes of 1977 and 1978 have captured first place in a tie.

This year Senior Hall featured a red tornado and senior photos while Junior Hall was covered with paper, signs and foil from floor to ceiling.

Upon hearing the winners, many juniors felt that they deserved the win alone.

Mike Ward searches for answers to his world cultures work sheet.

"There always has been talk about how great the Class of 1977 is, and it really made me feel like our class didn't measure up to them."

Finally our class showed that it could get things together and prove our spirit. I really thought we did the best job, and many kids, even seniors, thought we won by a long shot," remarked Candy Layser.

"When they announced it, I was very disappointed. The judges thought we equally deserved to win, so I guess we all must respect their decision," she continued.

Realizing that both classes put hours of work and effort into the halls, most juniors decided like Fran Bahstetter that they'd "rather tie for first than come in second or third."

"After spending all day long working side by side with our class decorating our hall, I really thought we deserved to win, declared Jill Bennett. "But I'm sure the seniors had to work hard to tie us, seeing that this was their last year. I feel that it will give our class even more incentive to win the contest next year by ourselves."

## Caged Tornado Featured in Contest

Taking third in the Hall Decorating Contest, the Sophomore Class employed roles of paper, wads of cotton, and bundles of ideas to place behind the tied Junior and Senior Classes

Entering into the hall, students walked through a cloud proclaiming the hall as that of the Sophomore

Class. Outside the atrium, a Falcon watched over a caged tornado. Going through the hall to the media center, names of varsity cheerleaders and football players were written on figures of each

At the bottom of the hall the glass of the media center was covered with blue and gray panels bear-

ing the phrase 'Cedar Crest Falcons—Blue and Gray!

"Midnight Sleigh Ride" was the theme of the Christmas dance sponsored by the class. The class also planned a money-making project for the spring, and chose their class colors, motto, and flower

## Class Shows Creativity At Christmas Dance

Undertaking their first project for the school, the Sophomore class sponsored "Midnight Sleigh Ride" as the annual Christmas Dance.

This dance was the first opportunity for the Class of 1979 to show their ideas and creativity. Most sophomores were proud that they could be involved in this activity.

"I think it was great for the sophomores to be involved with the Christmas Dance," remarked Tracy Fellin. "As freshmen, we were not allowed to han-

dle such a responsibility. Being in charge of the dance allowed us to feel older and more important."

As with many organizations, some members felt that too few people were getting involved in the planning and preparation of the dance.

"I feel that this year's sophomores need more class participation. It seems there are only a handful of very dedicated students working on such projects," said Jim Eber-sole.

## Choice Splits Friends As Class Picks Courses

As a sophomore, the choice between curriculum is taken academic, business, Vo Tech, and general. Students who were in class together their freshman year have gone their separate ways. When an academic student has a morning English class, a Vo-Tech student has general math, a business student has commercial math. From this year on the four curriculums rarely combine.

This split-up of courses caused another split up between friends. With students choosing different curriculums, the one concern was not seeing friends in a different course. But usually the students learned to make new friends quickly.

For the most part,

sophomores took the change in stride and saw it for the best. With the change in curriculum, I have the choice of now. I'm going to prepare for my life after school," stated Chris Long.

Mikki Weisman also felt the change was very important. "You are allowed to pick the area that you are interested in."

Kathy Arnold commented, "I have always been interested in a business career, and I'm glad I could take business courses here."

For those who decided to take the academic course, the only complaint was the amount of work and its difficulty. According to Ramona Brown, "The choice of academic classes changed my year because it was hard and kept me busy studying."

# Term Papers Worry Sophomores

It was great not to be a freshman anymore. It was a stepping-stone year. As Judy Zimmerman put it, it was "not being a punky freshman, but one step above being one. Next year I look forward to being a junior and being one step

away from being a senior."

Because they had had a taste of high school life, they knew what to do. They had looked forward to dances, record hops, new classes, Vo-Tech, sports seasons and less homework. Some looked even further, to being a junior, a senior, and graduating. And some just

looked forward to vacations and the end of the day. For most sophomores, the completion of their English term paper was the biggest worry of the year.

"I looked forward to Christmas vacation because then I knew my term paper would be over with," said Clay Bomgardner.

## Freshmen Join Clubs, Get Involved in Sports

Suddenly everything was different. They were thrust into a totally new environment in which to learn and experience high school. Getting picked on by upperclassmen was the biggest worry of the year. Commonly known as the "frosch", they were freshmen.

One new aspect was extra-curricular activity as freshmen joined clubs and went out for sports. "As an eighth grader, I looked forward to participating in such school activities as the plays, athletic teams, and in several clubs," commented Jonelle Harter.

Formal dances, pep rallies, and the 15-minute mod were also new ex-

periences. Grace Brubaker, along with other freshmen, had "looked forward to not being in a section with the same people all the time." In high school class sections were abandoned.

Their hopes for their sophomore year can be summed up in one word—getting. As sophomores they will be getting more involved: taking new courses, meeting new teachers, receiving more freedom, buying class jackets, going to Vo-Tech, and leaving behind Freshman Study.

The best part of their freshman year was making it to the last day—becoming sophomores.

## Frosh Study Unfair?

Faced with many new situations, the freshmen found themselves involved in many new projects.

The most distinctive of these projects was unified arts. All freshmen were required to take this course. Tim Ryan commented, "I don't feel we should have to be forced to take unified arts. I thought it was alright, but I'm sure there are lots of people who didn't like it at all."

Frosh elected class officers and sponsored a car wash to collect money.

Class dues of \$3 were collected over a period of four days.

A problem many felt was unjustified was the freshmen study hall. According to Lynn Onushco, "It's really unfair! It separated us from the rest of the school. It was like a assigned study hall-you had to do something."

Summing up the year, Sue Thompson said, "I felt like I belonged. The year was something new. I got to meet a lot of people-it's really a change."

# Unified Arts New for Freshmen

Nine weeks of study in art, shop, music, and home economics makes up the Unified Arts Program. This new mandatory system was initiated so that freshmen could have a well-rounded education in the arts.

Most freshmen realized one benefit from UA, as it is commonly called. They discovered subjects that they would like to continue taking.

Another "pro" was

that a student did not have to stay in the same class all year. According to Lori Krause, "The program is good because you get to try out different things and if you don't like one, you aren't there that long anyway."

But time caused another problem. Many felt that enough time wasn't given in each area.

"I don't think you are able to stay with a class long enough to get anything ac-

complished," commented Gerald Eisenhower. "You are pressed for time."

Another complaint about UA was that students would prefer selecting their own courses without having them mandated.

## Eighth Grade to Ninth— Stepping Up or Down?

According to the class of 1980, it was questionable whether coming from eighth grade to ninth was a step up or a step down. True, they had moved up a grade, but they also moved down three in authority.

Becky Long saw it as a long series of ups and downs. "I had to be able to take a lot of cracks about being a 'dumb freshman'." It sure was a change from being a 'high and mighty' eighth grader. It bothers me to think I'll have to go through it again in college."

Freshmen noticed that

instead of picking on sixth and seventh graders, they were being picked on by upperclassmen.

"When you are an eighth grader you think people should respect you," said Pam Bergen.

When you're a freshman, you have a little more respect for upper classmen."

Being treated differently in another aspect was also new to most freshmen. "When we got into high school, we were treated as adults," added Christi Smith. "In the middle school we were treated like babies."

# TRANSMISSION

## Early Scheduling to Save Time

# Various Classes Added, Returned, Discontinued

Various classes have been added, returned, and discontinued over the years. The school has a long history of offering a wide range of courses to its students. Some of the classes that have been added include Advanced Placement courses, foreign languages, and vocational training. Other classes that have been returned or discontinued include certain elective courses and specialized programs. The school's curriculum is constantly evolving to meet the needs of its students and the demands of the modern world.

# Teachers Encounter Frustrations, Enjoyment

# Shy to Bold, Teachers Remember Class of '77

The Class of 1977 left behind a definite mark with teachers, administrators, and everyone associated with Cedar Crest Leadership, for the most part summed up this graduating class.

"The class members worked together so well that my last few years as class advisor were almost effortless," observed Mrs. Linda Leudy.

They took more pride in their school and what they were doing in their activities because they wanted their class to be one of the best that ever graduated," Mr. William Dissinger remarked.

"The Class of '77 was outspoken and friendly. It contained several outstanding students and many with leadership qualities," said Mr. Wilfred Sherk.

But along with leadership, the Class of 1977 has left unusual memories and friends. Mr. Sherk noted some of the few things that he would remember about the class: (1) Ken Allwein came to class a few times; (2) Greg Brarale won the pole vault sometimes; (3) Cook Brownberger frowned once; (4) Rohinton Katrak didn't get an A+ one quarter

(5) Dave Witter actually won some golf matches; and (6) Vicki Koehler did one good map in world

— always remember Brian Haldeman demonstrating the castenets in a gypsy cave in Granada, Spain," commented Mrs. Phyllis Yaklich.

Mr. Herbert Levy expressed his most memorable impression of his four years with this class. "I have seen some shy, introverted freshmen emerge as bold, extroverted seniors."

ABOVE: History teacher Mr. William Miller is amused by the question presented by Debbie Fallaser. LEFT: Mrs. Phyllis Messersmith, home-ec teacher, instructs Annette Hubert of the procedure of darning a sock while Tammy Spangler waits patiently with her question.

## Special Staffs Keep School Functioning

Relentless in their pursuit of maintaining a clean and efficiently operating building the custodial staff kept a constant surveillance on pipes, floors, locks, doors and other such what-nots necessary to the function of the school. They served as round-the-clock sentries, opening the building in the early morning, delivering supplies and performing other varied services during the day, securing the premises when classes and most activities ceased, and remaining after hours when the only noise or disturbance might be a malfunctioning water fountain.

Daily transportation was provided by the school district's crew of bus drivers. With a shove of the clutch and grind of the transmis-

sion, the big yellow paddy wagons rolled from 7-9 in the morning and 2-4 in the afternoon, covering an area of some 60-70 square miles. Driving on field trips, to athletic events, and for other activities was also a part of their day-to-day basic routine.

Fifteen cafeteria workers prepared hot meals for the student body and faculty. Toiling throughout the morning into afternoon with food dishes, and other kitchen work, the ladies fed the masses that flowed in and out of the caf during the mid-day lunch periods. "I really enjoy it," related Florence Bover, caf worker. "It is important to see someone is here to do the work and see the kids get a balanced meal."

LEFT: Bubble, bubble, toil and trouble . . . Mrs. Patricia Bolt stirs her cauldron of chicken soup with a ladle fit for a giant. ABOVE LEFT: Louie Frahm puts a fresh coat of paint on a few rusty wastebaskets. ABOVE: DAY JANITORIAL STAFF Ira Shilling, Henry Huntz, Earl Stick.

# FREQUENCY, SINPO<sup>®</sup> RECORDED IN STATION LOG

\*Signal - Interference - Noise - Propagation - Overall merit

*LEFT: Breaking through "the frame," senior Rick Mason leads the varsity basketball squad in warmup exercises. BELOW: Cymbal player Dave Keenan takes a breather during summer hand camp*

*ABOVE: YEA president Sheila Wampler inquires about an upcoming money-making project to club advisor Mr. Alvin Light. LEFT: Thrill of victory . . . Varsity hockey players Darlene Reist, Brenda Long, Vicki Reppert, and Sandy Miller raise their arms in victory over a goal just scored*

*Paying their required fifty cents, which is later refunded, Randy Derr and Angelo Beatty sign a bus list for the girls' basketball district playoffs*

Breaks in the wintry weather  
alarm fire drills complete

acknowledged on one final "entry into the station log"  
ently anticipated acceptance

*RIGHT* Confronted by a band member, Mr. Robert Rhine listens to the situation being aired  
*BELOW* Agony of defeat . . . Not believing what he saw, JV basketball coach Mr. Luke Scipioni rubs his eyes in an attempt to remove the unorganized play

W12CCHS  
OFF THE AIR  
NEXT BROADCAST  
IN 17 HRS 25 MIN

LEFT Enriching the moisture content of the soil, Mr. Stanton Templin babies his "Orchidus Flowerus." BELOW Gail Kleinfelter checks on the poinsettias in the Vo-Tech greenhouse.

Drum major George Duhner and band parent Mr. John Ceresini peck corn into burlap bags.

# SIGNAL FADING....

learned will be the experience ne  
up and tune into the  
and disperse

*Say that again, Boy! Confronted by Mark Sakalosky, Ken Fausnacht explains the situation while Dave Witter and Linda Bernhard watch as innocent bystanders*

*Producing musical entertainment before a varsity basketball game, Pep Band members play 'Theme from the Men.'*

*ABOVE: Leading the band in a Christmas parade, main guard and banner members proudly display the banner and colors. LEFT: Using the hall as a dressing room, Tom Behney changes shoes for yearbook pictures.*

WALSWORTH  
Marquette Mo., U.S.A.

# COLOPHON

Volume 12 of the Cedar Log was printed by Walsworth Publishing Company of Marcelina, Missouri. Thirteen hundred and twenty copies containing 352 pages, 9 x 12 trim size were printed on 80-pound natural Sonada kidskin paper. Mr. Kenneth Pope was the account executive and Mr. Carl Peterson was the local sales representative.

The lithographed cover was printed in Atlantic blue ink on white linen cover material with the Falcon mascot and title hot-foil stamped in silver. The endsheet picture was printed using the four-color process. Body copy throughout the book was 10 point Melior. Outlines were set in 8 point Melior Italic. The index and faculty data in 8 point Melior. Basic headlines were 24 point Melior. Prestype, Formatt, and Art type were used for special effect headlines. The typeface used on the cover, opening, dividers, and closing was Formatt Circuit Double 36, and 48 point.

Pictures in the opening section were printed using the four-color type C process. Base ink color for the book was black. Other ink colors used on the divider pages and closing pages in addition to the process colors were varying intensities of flame orange, sepia, peacock blue, spring green, maroon, and vermillion. Special effects included cut out backgrounds, mezzotints, line art conventions, phantom halftones, reverses, and duotones.

Williams Studio was the official yearbook photographer. News pictures appear courtesy of the *Leliana Daily News*.

The Cedar Log '77 staff expresses special thanks to Mr. William Buser, Mr. Robert Zeigler, Mr. Jerry Kalinoski, parents, friends, and the Cedar Crest faculty and administration.
